EDITORS & EDITORIAL BOARD

Biochemistry & Analytical Biochemistry: Current Research is a peer reviewed international journal providing a publica-

tion vehicle for coverage of topics of interest to those involved in biochemistry, analytical biochemistry and biochemical engineering. It aims to help researchers reach relevant resources as quickly as possible, leaving more time for further research.

Biochemistry & Analytical Biochemistry: Current Research provides an immediate Open Access to its content making research

freely available to the public which supports a greater global exchange of knowledge in the area of biochemistry and analytical biochemistry.

Biochemistry & Analytical Biochemistry: Current Research provides latest practical technology and research at faster rates to the readers of various categories i.e. scientists, experts, research scholars, administrators, extension workers, private organizations for application of organic and eco-safe usage of various drugs in the field of biochemistry and analytical biochemistry.

Biochemistry & Analytical Biochemistry: Current Research- Open Access using online manuscript submission, review and tracking systems of Editorial Manager® for quality and quick review processing. Submit your manuscript at
