Journal of Bioprocessing & Biotechniques

Open Access

www.omicsonline.org

Bioprocessing is a commercial, scientific process that uses the complete living cells or biological materials in order to obtain the desired product with the application of some varied biotechniques.

The Journal of Bioprocessing and Biotechniques elaborates the application of biodegradable, extremely efficient enzymes or microbes in latest advanced techniques of bioprocessing and ensures the production of pure products which have varied commercial uses, less hazardous towards environment, and harmless even if the enzyme gets contaminated.

The Journal of Bioprocessing and Biotechniques explicates the latest technological developments of the researchers on techniques of bioprocessing in the field of biotechnology, and the contents of the journal are designed specifically for technical professionals in process where it acts as a key for various emerging industries and technologies. The Journal of Bioprocessing and Biotechniques emphasizes the laboratory exercise which will reinforce the scientific methods, modernized laboratory techniques, laboratory safety, and various fundamentals of instrumentation. The information provided in the Journal of Bioprocessing and Biotechniques is freely accessible through net to the online viewers globally.

Journal of Bioprocessing & Biotechniques – Open Access using online manuscript submission, review and tracking systems of Editorial Manager® for quality and quick review processing. Submit your manuscript at

Editors & Editorial Board

John E. Murphy
Bayer HealthCare
LLC, USA

Alan W. Seadler
Duquesne University,
USA

Soumitra Ghoshroy
University of South
Carolina, USA

A.C. Matin
Stanford University
School of Medicine,
USA

Argyrios Margaritis
University of Western
Ontario, USA

Denis Roy
Laval University,
Canada

C. P. Chou
University of Water-
loo, Canada

Ni-Bin Chang
University of Central
Florida, USA

M. Kamihira
Kyushu University,
Japan

Henggui Zhang
The University of
Manchester, UK

Olaf Kruse
Bielefeld University,
Germany

Timothy S. Lee
Bulk Manufacturing
Sanofi Pasteur Ltd,
Canada

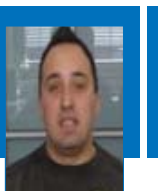

Todd R. Sandrin
New College of Inter-
disciplinary Arts and
Sciences, USA

Shijie Liu
Biorefinery Research
Institute, United
States

Sonia M. Tiquia
The University of
Michigan-Dearborn,
USA

M. Georgiev
Institute of Microbiol-
ogy, Bulgaria

G. Brelles-Mariño
California State Poly-
technic University, CA

Florin Despa
The University of
California Davis, CA

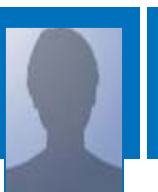

Mark R. Wilkins
Oklahoma State
University, USA

Shengde Zhou
Northern Illinois
University, United
States

G. Sivakumar
Arkansas State
University, USA

Jianming Fu
Kansas State Univer-
sity, USA

Roger C. Lo
California State
University, USA

Yuhua Song
The University of
Alabama, USA

L.J.R. Foster
The University of
New South Wales, Australia

M. Murray-Nseula
Andrews University,
USA

Badal C. Saha
National Center for
Agricultural Utilization
Research, USA

Steven Van Ginkel
Arizona State Univer-
sity, USA

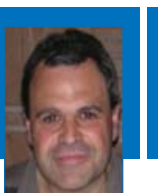

Brian McNeil
Strathclyde Univer-
sity, UK

Ali Mobasheri
University of Not-
tingham, UK

Stefano Curcio
University of Calabria,
Italy

Alejandro Giorgetti
University of Verona,
Italy

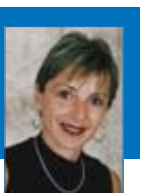

Richard J. Holmes
NIBEC Building
University, UK

G. Graham Allison
Aberystwyth Univer-
sity, UK

Anantharam P. Dadi
