

Journal of Bacteriology & Parasitology

ISSN: 2155-9597

Open Access

www.omicsonline.org

The impact of new advancements and growing recognition of the microbial diversity has changed our understanding of bacteriology just as a subject. Bacteriology is moving into a new epoch that has minimal focus on specific organisms and maximal focus on the processes and mechanisms which relate them. The importance of need to control ravage disease motivates current research in parasitology. Journal of Bacteriology & Parasitology entwine this new epoch by encircling the subject in its broadest sense.

Journal of Bacteriology & Parasitology under an Open Access category is a peer-reviewed journal, aims to provide the most complete, dependable and undeviating source of information on current developments in the arena of bacteriology & parasitology. The emphasis will be on publishing quality research papers rapidly and to make freely available to researchers worldwide.

This journal aims to provide a complete awareness to its readers about the current research in the area of bacteriology and parasitology. Journal of Bacteriology & Parasitology is a peer-reviewed and Open Access scientific journal dedicated to publish significant research work and circularizing profound knowledge of bacteria and other micro-organisms. Journal of Bacteriology & Parasitology provides an intermediate for the rapid publication of both full-length research articles on novel and innovative aspects of bacteriology and parasitology.

Journal of Bacteriology & Parasitology - Open Access uses online manuscript submission, review and tracking systems for quality and quick review processing. Submit your manuscript at

Editors & Editorial Board

Fernando Villalta
Meharry Medical College, USA

Thomas P. West
South Dakota State University, USA

M S. Niederman
Winthrop-University Hospital, USA

Luis I. Terrazas
Universidad Nacional Autónoma de México, USA

Mark T. Muller
University of Central Florida, USA

Yousef Abu Kwaik
University of L Health Sciences Center, USA

Guiyun Yan
University of California at Irvine, USA

Xuejie Yu
University of Texas Medical Branch, USA

Yusen Liu
The Ohio State University, USA

L Carlos de Mattos
Immunogenetic Laboratory, Brazil

Vasco Azevedo
Federal University of Minas Gerais, Brazil

Jaime Santana
Universidade de Brasília, Brasília

M A Flores-Valdez
Medical and Phar. Biotechnology Mexico

S P Erik Joakim
University of Helsinki, Finland

Konttinen
University of Helsinki HU, Finland

Florian Lang
University of Tübingen, Germany

Paolo Visca
University Roma Tre, Italy

H Jürg Monstein
University Hospital, Sweden

Suhail Ahmad
Kuwait University, Kuwait

Lijuan Zhang
National Institute for Communicable Disease, China

Shahida Hasnain
University of the Punjab, Pakistan

Scot E Dowd
Research and Testing Laboratory, USA

Imrich Barák
Slovak Academy of Sciences, Slovak Republic

Shesheer Kumar
RAS Lifesciences, India

Ferenc Orosz
Hungarian Academy of Sciences, Hungary

Afsar Ali
University of Florida at Gainesville, USA

G Dimopoulos
Johns Hopkins University, USA

Amy M. Grundel
North Carolina State University, USA

Emil Kozarov
Columbia University, USA

Barbara J. Mann
University of Virginia Health System, USA

Ashok Aiyar
LSU Health Sciences Center, USA

Hui Wu
University of Alabama at Birmingham, USA

Paul Orwin
California State University, USA

Nahed Ismail
Meharry Medical College, USA

Maria E. C. Bruno
Immunology and Molecular Genetics, USA

Helen K. Kimbi
University of Buea, USA
