Journal of Petroleum & Environmental Biotechnology

Open Access

www.omicsonline.org

Journal of Petroleum & Environmental Biotechnology covers various aspects of Petroleum & Environmental Biotechnology which quickly brings all the readers up to date with the state of the science in fast-moving areas of research.

Journal of Petroleum & Environmental Biotechnology under Open Access category aims to advance our understanding of the action of drugs and their addictive processes, diagnosis, harmful effects as well as assist in prevention and treatments of addiction. The Journal of Petroleum & Environmental Biotechnology is an international, peer-reviewed journal publishing various aspects of Environmental Biotechnology such as Bioremediation, phytoremediation & Petroleum biotechnology like Biofuel production & their current research.

Journal of Petroleum & Environmental Biotechnology explicates the application of biotechnology to the field of environment such as biofuel production, bioremediation, phytoremediation. The Journal is promptly available, and is freely accessible globally through internet to share the innovations of the researchers for scholarly advancement in this field.

Journal of Petroleum & Environmental Biotechnology - Open Access uses online manuscript submission, review and tracking systems for quality and quick review processing. Submit your manuscript at
