Open Access Publication Fee

OMICS Publishing Group, a self supporting organization and does not receive funding from any institution/government. Hence, the operation of the Journal is solely financed by the handling fees received from authors and some academic / corporate sponsors. The handling fees are required to meet maintenance of the journal. Being an Open Access Journal, it does not receive payment for subscription as the articles are freely accessible over the internet. Authors of articles are required to pay a fair handling fee for processing their articles. However, there are no submission charges. Authors are required to make payment ONLY after their manuscript has been accepted for publication.

The cost for Open Access Article(s) publication fee will be established in a 3-tier sliding scale directly tied to the yearly classification of the **World Bank Economies** of countries (i.e. High Income countries, Middle income countries and Low income countries).
