

OMICS INTERNATIONAL

OMICS Group International through its Open Access Initiative is committed to make genuine and reliable contributions to the scientific community. OMICS Group signed an agreement with more than 1000 International Societies to make healthcare information Open Access.

OMICS Journals are welcoming Submissions

OMICS International welcomes submissions that are original and technically so as to serve both the developing world and developed countries in the best possible way.

OMICS International Journals are poised in excellence by publishing high quality research. OMICS Group follows an Editorial Manager® System peer review process and boasts of a strong and active editorial board.

Editors and reviewers are experts in their field and provide anonymous, unbiased and detailed reviews of all submissions. The journal gives the options of multiple language translations for all the articles and all archived articles are available in HTML, XML, PDF and audio formats. Also, all the published articles are archived in repositories and indexing services like DOAJ, CAS, Google Scholar, Scientific Commons, Index Copernicus, EBSCO, HINARI and GALE.

Dr Ashish Chauhan and his Scientific Contribution

Dr Ashish Chauhan was born in Himachal Pradesh on 16 October, 1979 in Chamba, India. He did schooling at St. Lukes, Solan and Masters Degree in Organic Chemistry with specialization in Pharmaceutical Chemistry in 2002. He received his PhD Degree in 2011 under the supervision of Dr B. S. Kaith (Professor and Head of Chemistry Department) at Dr B. R. Ambedkar National Institute of Technology, Jalandhar, Punjab. He has distinguished in various subjects and received academic awards.

He has been imparting theoretical and practical training on advanced analytical techniques to Post Graduate and Ph.D Scholars of Science, Applied Science, Pharmacy and Technology at SMPIC Centre under the Ministry of Chemicals and Fertilizers at Punjab, India. He has been working on modern bio-analytical techniques, utilizing the biomass, polymers and composites since last eight years. He has numerous international publications of research and review articles in high impact Journals. He has contributed a number of research articles for International and National Conferences, Editorial Articles for the esteemed Journals. He is associated as an active member in scientific associations. He is member of Advisory Board, Editorial Board and Acknowledged reviewer of many International Scientific Journals.

Striving to obtain the Advanced Materials from waste Biomass by using latest Characterization and Evaluation Techniques
