

OMICS INTERNATIONAL

OMICS International through its Open Access Initiative is committed to make genuine and reliable contributions to the scientific community. OMICS International hosts over **700** leading-edge peer reviewed Open Access Journals and organizes over **1000** International Conferences annually all over the world. OMICS International journals have over **10 million** readers and the fame and success of the same can be attributed to the strong editorial board which contains over **50000** eminent personalities that ensure a rapid, quality and quick review process. OMICS International signed an agreement with more than **1000** International Societies to make healthcare information Open Access.

OMICS Journals are welcoming Submissions

OMICS International welcomes submissions that are original and technically so as to serve both the developing world and developed countries in the best possible way.

OMICS Journals are poised in excellence by publishing high quality research. OMICS International follows an Editorial Manager® System peer review process and boasts of a strong and active editorial board.

Editors and reviewers are experts in their field and provide anonymous, unbiased and detailed reviews of all submissions. The journal gives the options of multiple language translations for all the articles and all archived articles are available in HTML, XML, PDF and audio formats. Also, all the published articles are archived in repositories and indexing services like DOAJ, CAS, Google Scholar, Scientific Commons, Index Copernicus, EBSCO, HINARI and GALE.

Pediatrics & Therapeutics

Open Access

ISSN: 2161-0665

Editor *Pediatrics & Therapeutics*

Bradley Scott Miller
Department of Pediatrics
University of Minnesota
USA

Biography:

Dr. Miller completed his MD and PhD in a combined program at the Medical University of South Carolina (1997). His doctoral thesis research focused on signal transduction of the insulinlike growth factor (IGF) receptor. Dr. Miller completed his Pediatric residency (2000) and Pediatric Endocrinology fellowship (2003) at the Mayo Clinic. He has been an Assistant Professor in Pediatric Endocrinology at the University Of Minnesota since 2003.

Research Interest:

Dr. Miller has an interest in the role of the growth hormone (GH)/IGF system in normal and abnormal growth in children. He is also interested in the growth and development of children following adversity including cancer and its therapies, fetal alcohol exposure and international adoption. Dr. Miller is also interested in the endocrine aspects of abnormal glycosylation in children with Congenital Disorders of Glycosylation.
