# Journal of Bioremediation & Biodegradation

Bioremediation is the process monitored by Biodegradation of various pollutants and also acts as the microbial metabolism to remove pollutants. Journal of Bioremediation and Biodegradation addresses the study of microbial communities, genetic biodegradation, biotransformation technologies and also microbial degradation.

Bioremediation and Biodegradation is an international, peer-reviewed journal in the biodegradation of various microbial pollutants. All the contaminant is treated by bioremediation using microorganisms.

Journal of Bioremediation and Biodegradation explicates the containment, clean up process, treatment or recovery process. Journal is promptly available, and is freely accessible globally through internet to share the innovations of the researchers for scholarly advancement in this field.

Journal of Bioremediation and Biodegradation– Open Access using online manuscript submission, review and tracking systems of Editorial Manager® for quality and quick review processing. Submit your manuscript at

<http://omicsgroup.org/editorialtracking/bioremediation/SubmitManuscript.php>

## Editors & Editorial Board

**Fengxiang Han**  
Jackson State University  
USA

**Victor M Ibeanusi**  
Spelman College  
USA

**Thavasi R Thavasi**
