

Journal of Blood Disorders & Transfusion

ISSN: 2155-9864

www.omicsonline.org

The journal focus on all aspects of molecular genetics, pathophysiology and epidemiology as well as prevention, diagnosis, and management of blood disorders with current state of research in the field of transfusion medicine, hematology, hemato-oncology, pediatric hematology and laboratory hematology.

Journal of Blood Disorders & Transfusion is an international, peer-reviewed journal publishing an overview of human research on different types of blood disorders which include anaemia, haemophilia, leukaemia and haemorrhage etc. and also towards the aspects of blood transfusion.

Journal of Blood Disorders & Transfusion accent and stress on publishing quality papers rapidly and freely available to public worldwide. Journal of Blood Disorders & Transfusion will comprehend all aspects of basic and clinical science that have impact on study of blood disorders. It is a multidisciplinary journal that aims to keep scientists, clinicians, researchers, students and general public to know latest research on blood disorders & transfusion.

Journal of Blood Disorders & Transfusion - Open Access uses online manuscript submission, review and tracking systems for quality and quick review processing. Submit your manuscript at
