

Journal of Nutrition & Food Sciences

ISSN: 2155-9600

Journal of Nutrition & Food Sciences covers high quality of manuscripts which are both relevant and applicable to the broad field of applied life sciences. Journal renders novel, clear connection to nutritional requirements by the perceived palatability of foods and their applications in highly interdisciplinary applied sciences. Journal aims to reflect contemporary thinking so that professionals can keep pace with the developments in the field of nutrition and food sciences.

The Journal publishes papers both of clinical interest and of scientific importance, emphasis on the practical application of ideas. Journal of nutrition and food sciences includes peer-reviewed research covering all aspects of experimental nutrition and various sub disciplines of food science. The Journal under Open Access category provides a comprehensive view of the food chain and their interactions between diet and health.

The Journal provides the safe, evidentiary advice to the online viewers by the research of the dietitians who specialize in human nutrition, meal planning, and preparation, which makes the individuals get alleviated from the common health problems. The Open Access Journal offers easily readable, accessible coverage of this complex and dynamic field of nutrition and food sciences which brings a clear view of versatile health threatening conditions and deficiency diseases.

Journal of Nutrition & Food Sciences - Open Access uses online manuscript submission, review and tracking systems for quality and quick review processing. Submit your manuscript at
