CEO's Statement

Dr. Srinubabu Gedela

OMICS Group Inc. is a global leader in Open Access publishing that also organizes International Science Conferences and events across the globe. OMICS Group has been striving to give the best over the years with your kind support and cooperation.

On behalf of the Managing Director, Management and Staff of the OMICS Group Internationals, I would like to extend my heartfelt thanks and gratitude to all the individuals and organizations that have extended support and cooperation in taking the organization to great heights.

OMICS Group's mission was to create a global platform to disseminate Scientific and Healthcare Information and making it Open Access. OMICS Group could make great inroads into Science publishing and Science event organizing with more than 350 Open Access Journals and 100 add conferences to its credit annually.

I encourage you all to visit our websites to find more details about our activities and request you to guide us to serve you better over the years to come.

The year 2013 has been very successful for OMICS Group as it plunged to 350 Journals from 250 and acquired 50 journals, including the most reputed journals like 'Oral Health & Dental Management, Journal of Pancreas, Cellular & Molecular Biology, and The African Journal of Psychiatry.

OMICS Group Conferences could diversify into EU, The Middle East, Asia Pacific, and Australia. OMICS Group successfully developed mobile application for Android and IOS operating systems; collaborated with 150 national and the international non-profit scientific, research societies and institutions and added language translation services in German, French, Spanish and Chinese languages.

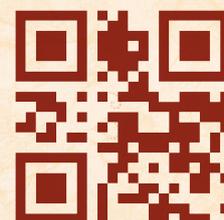

We have got bigger plans for the year 2015 to expand our operations to Canada, Germany, Italy, Singapore, and the South American nations like Brazil and Mexico. The ideas with the deepest endurance can come true and we will prove our passion and perseverance towards the development of a Global Scientific Society.

We rededicate ourselves towards Science and serving the scientific community. We are happy to create bigger platforms through our conferences and journals for you all to establish greater networks and enhanced B2B opportunities.

As our motto is to 'Accelerate Scientific Discovery', I cordially invite you all to join hands with OMICS Group activities by sharing your research work through our Open Access journals and conferences.

I welcome you all to share your ideas and thoughts towards the development of scientific community. Please feel free to reach me at ceo@omicsgroup.org. Together we will transcend the barriers in creating a knowledge filled society.

Most sincerely,
Dr. Srinubabu Gedela
Managing Director and CEO

Greetings from the Governor
Brian Sandoval

Greetings!

As Governor of the State of Nevada, it is with great pleasure that I welcome you to the 3rd International Conference and Exhibition on Food Processing & Technology hosted by OMICS Group Inc. Whether you have traveled a significant distance to be here, or have made the Silver State your permanent home, it is my honor to welcome you. I would also like to thank all of you who have worked on putting this successful convention together.

The OMICS Group through its Open Access initiative is committed to make genuine and reliable contributions to the scientific community. OMICS Group Conferences make the perfect platform for global networking as it brings together renowned speakers and scientists across the globe. I commend you for having exciting and memorable events filled with enlightening interactive sessions. Thank you for bringing this dynamic exposition to our great state.

As Governor of the great State of Nevada, I would like to express my appreciation to the OMICS Group for making this extraordinary conference a possibility.

Sincere regards,

A handwritten signature in blue ink, appearing to read "Brian Sandoval".

Brian Sandoval

Governor

STATE OF ILLINOIS
OFFICE OF THE GOVERNOR
SPRINGFIELD, ILLINOIS 62706

Greetings from the Governor

Pat Quinn

Greetings!

As Governor of the State of Illinois, I am pleased to welcome everyone gathered for the International Conference on Women's Health, Gynecology, & Obstetrics in Chicago, which is organized by the OMICS Group.

Illinois is honored to serve as host for this impressive gathering. With a theme of Best Practice and Research in Clinical Obstetrics and Gynecology, this year's conference promises to provide its attendees access to recent discoveries and advances in women's health care. This conference is an excellent opportunity for scientists, women's health advocates, public policy experts, health care providers, academics and students from all over the world to gather and discuss developing women's health issues.

I commend your dedication to the pursuit of advancing women's health care. The Land of Lincoln is honored to host you as our esteemed guests. During your stay, I encourage you to take advantage of the many sites and attractions that our state has to offer. From historic landmarks and world-renowned museums, to first-class dining and theatre experiences, there is truly a wide-array of interests represented across the Land of Lincoln.

On behalf of the people of Illinois, I offer my best wishes for a memorable and productive conference.

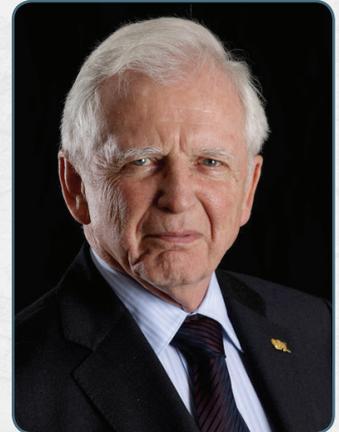

Sincerely

Pat Quinn

Pat Quinn
Governor

Welcome Message

Harald zur Hausen

Dear Colleagues,

As a member of organizing committee of the 4th World Congress on Virology at San Antonio, Texas, USA from October 06-08, 2014, it is my pleasure to welcome you to this important event.

We expect that this decade will see substantial advances in the field of Virology. My own work in the area of virus-linked cancers, in particular HPV 16 and HPV 18 showed us the potential in this field. Thus, I would like to make a few remarks on the important stream topics of the conference.

Virology explores the nature of the viruses and their structure and assembly, viral genome replication and regulation of gene expression, genetic diversity and evolution, virus-cell interactions, cellular responses to infection, transformation and oncogenesis, gene delivery, viral pathogenesis and immunity, and vaccines and antiviral agents. The viral infection causes changes in the cell, particularly in its antigenicity; moreover, directing the host cell's metabolism to the production of new virus particles may cause cellular death. Virally-induced cell death, changes in antigenicity and the response of the host to the presence of the virus leads to the manifestations of viral disease.

Therefore, it is very useful to bring together experts from the field of Virology for discussions of the latest advances and ideas, and to stimulate interdisciplinary interactions.

Conferences like this one may help to speed up the development of effective therapies for viral disorders. In this field OMICS Group Conferences are doing an excellent job towards bringing efficient scientists all around the world to a common platform to discuss various streams in Virology.

I am very happy and delighted to participate at this event and anticipate interesting discussions with my colleagues at San Antonio in Virology-2014.

Once again I am delighted to invite you to take part in this conference.

With Best Regards,

A handwritten signature in blue ink that reads "Harald zur Hausen".

Harald zur Hausen

Nobel Prize Winner for Medicine in 2008

Welcome Message

M S Swaminathan

My Dear Fellows,

Being as the Scientific Advisor for the 3rd International Conference and Exhibition on Food Processing & Technology (Food Technology-2014) at Las Vegas, USA from July 21-23, 2014, it is my pleasure to welcome you all to this important and prestigious event.

We expect that this decade will see great advances in food processing & nutrition science. My own achievement “Introducing high-yielding wheat and rice varieties to India starting India’s Green Revolution” is in this field.

Food Technology-2014 depends on generous knowledge donations of experts to promote the scientific discoveries. It will be committed to promote open, transparent, and international scientific exchange on the “Accelerating new research and innovations in Food Processing and Technology” and contribute to the improvement of efforts taken to tackle local, national and global impacts of food science.

Therefore, it is very useful to bring together experts from the field of food processing and nutrition science for discussions of the latest advances and ideas, and to stimulate interdisciplinary interactions.

Conferences like this one may help to speed up the development of effective development in food technology, nutrition and public health.

Once again I am delighted to invite you all to take part in this conference and also to make the conference a grand success.

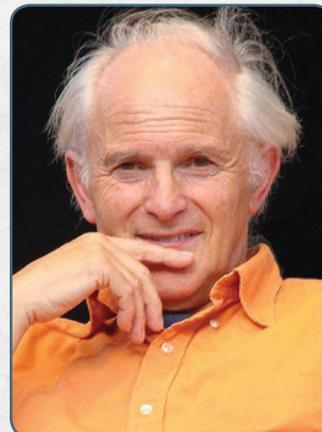

With Best Regards,

Prof. M S Swaminathan

First World Food Prize Laureate (1987), India

Welcome Message

Harold Kroto

Nobel Laurate Prof. Harold Kroto of the Florida State University, USA delivers his valuable keynote address on 'Carbo in Nano and Outer Space' at the 4th International conference on Nanotek & Expo during December 01-03, 2014 at San Francisco, USA. We, at OMICS Group extend a heartfelt welcome on this occasion.

My Dear Fellows,

"Recent exciting developments in our understanding of nanostructured materials promise paradigm shifting advances in device applications and meetings such as Nanotek 2014 facilitate the cross-disciplinary research which will be needed to overcome the major technical hurdles if this promise is to be realised."

With Best Regards,

A handwritten signature in blue ink, appearing to read 'H Kroto'.

Prof. Harold Kroto

Nobel Prize in Chemistry in 1996

Business to Business Meetings

B2B Meetings

OMICS Group has enhanced and highlighted the feature of B2B meetings.

The OMICS Group Inc. is bringing together companies from Science and Technology sector to their conferences. The representatives from these companies would like to meet like-minded companies to discuss their common challenges and look towards forming alliances to tackle these challenges together.

We are organizing a series of B-2-B meetings at our conference venue and would like to invite your participation. Many delegates will be coming at the conference for the first time thus seeking collaboration with local and multinational companies on projects or representation.

We invite you to visit our website to browse through the profiles of the companies and register your interest with us so that an appointment can be made for both parties to meet.

B2B meetings are pre-arranged, targeted appointments are dedicated to get buyers and exhibitors to meet. B2B meetings are a simple, efficient and pro-active way of working.

By targeting the right participants to our B2B meetings help you maximize the impact of your participation and increase your chances of making high-quality business connections.

We arrange private One-to-One meetings with high profile business representatives, at associated business conventions and international conferences across the globe.

B2B-partnering services are offered to all registered participants at any OMICS Group Conferences.

Prospects

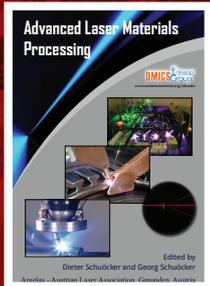

OMICS Group aims at delivering unlimited opportunities for making business deals, product enhancements, cutting edge solutions for improving and elevating company's business and partnership. This unites all the leading industry professionals, business development executives, institutional investors, capitalists and corporate investors. This enables in arranging private One-to-One meetings with other elite business representatives which increases your chances of Marketing in this networking World.

How would one be benefited?

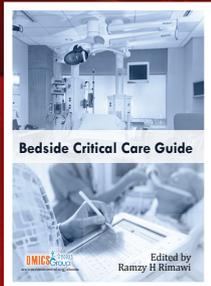

If you're looking for detailed, up-to-date and in-depth communication on latest scientific research then B2B is a perfect platform.

B2B Meetings could be in between:

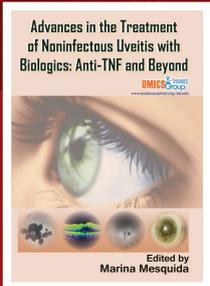

- Investors with Investors
- Business Executives with Business Executives
- C-Level Executives with C-Level Executives
- Academia Representatives with Academia Representatives
- Government Representatives with Government Representatives
- Manufacturers and R&D Executives with Manufacturers and R&D Executives
- Clinicians/Physicians with Clinicians/Physicians

Sponsorship Opportunities

OMICS Group International - eBooks is an initiative of OMICS Publishing Group. Established in the year 2012 with the sole aim of making the information on Science and Technology 'Open Access', we publish eBooks in all fields of Science, Engineering, Management and Technology. It also promotes awareness to all arenas of public to encourage research and to aid scientific community by executing the significance of latest research. It also provides a platform to share the scientific knowledge and information globally. Based on the need and call from the scientific community OMICS Group have started OMICS Group eBooks - Open Access. OMICS Group have over 1 million readers and the fame and success of the same can be attributed to the strong editorial team which contains over 150+ eminent personalities. OMICS Group hosts over 100+ Open Access eBooks edited by 150+ eminent scholars from all corners of the globe.

Motive

OMICS reached eminent scholars from parts of North America, Europe and Australia; we are also trying to widen our approach to all parts of the globe in such a way that every individual: scientist, professor, research professionals/scholars and students should be capable of sharing and acquiring knowledge through open access.

Special Features

- More than 100 open access eBooks
- Rapid peer review process
- 150+ Editorial Team
- 1 million readers
- We publish an eBook/book chapter in most updated digital formats
- Publication immediately after acceptance
- We had published a total of 166 book chapters online and are available for readers.
- Language Translation - Our online tool will convert all the book chapters to 50 more world leading languages
- **Hard Copies of eBooks:**
 - OMICS Group eBooks initiates to reach scientific community in a broader way in Hard copy prints of eBooks.
 - Any reader interested in hard copies of an eBook, can approach us @ ebooks@omicsgroup.us; omics.ebooks@omicsgroup.us

In collaboration with

- Excellence in Pediatrics
- US-Japan Health Sciences Dialogue
- Thalassaemia International Federation

Membership Benefits

The OMICS Group eBooks membership program, initiated to accomplish the vision of making Healthcare & Scientific Information Open Access, enables academic and research institutions, societies, groups, funding organizations and corporations to actively support Open Access in scholarly publishing.

Individual Benefits

Member can have a benefit to coin an eBook and can submit any number of Book chapters to any of the OMICS Group eBooks.

Institutional Benefits

Any University/Institute which has membership with OMICS Group eBooks will get waiver on registration (for two representatives) for any one OMICS Group Conference and can also submit maximum of 3 papers of their research work in any of the proposed journals of OMICS Group for free of cost.

Corporate Benefits

Advertisement banner of your (Organization) products/services in OMICS Group eBooks website for a limited span of 2 months and also has an opportunity to organize a workshop at any one of our events. We are flexible to come up with customized membership plans to support the research work of an individual/institution/organization, so that one's research work will reach the scientific community.

Benefits of sponsoring an OMICS eBook

- *OMICS eBooks attracts an exclusive group of Scientists, Researchers, Department Chairs, Directors and decision makers from all corners of the Pharma, Biotech, Health Care and Engineering industries*
- *Well positioning and branding of your organization through high visibility to thousands of readers from all around the world*
- *OMICS eBooks cover wide range of topics to see and evidence the latest innovations and advances in the scientific community*
- *Guidance in identifying and targeting right readers for your Business*
- *We are flexible to come up with customized communications plans to support your promotional activity*
- *Sponsorship plans starts from \$100*

OMICS App

Read, Share & Stay Connected!

OMICS App gives you access to the latest research from over 350 peer reviewed journals of varied disciplines. It also provides all the latest information regarding international conferences organized by OMICS Group.

The valuable set of features provided by this app includes:

- Enhanced user experience
- Improved reading experience
- Issue-based navigation of journals
- Browse abstracts and full length articles
- Open PDF files of the articles
- Precisely described scientific program
- Exhibitor and sponsorship opportunities

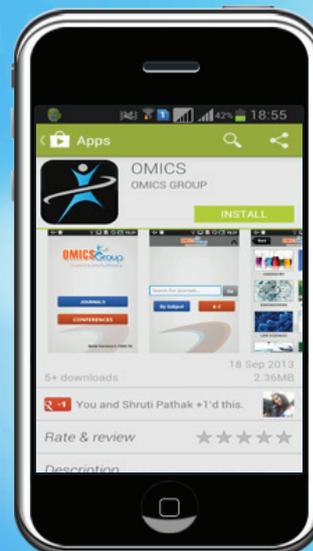

App Store

Google play

Application can be downloaded from the Google play store and Apple App store.

News on OMICS

OMICS: Knowledge dissemination through innovation

Dr. Srinubabu Gedela, a post doctorate degree holder from Stanford University, initiated OMICS Educational Society, which works on the model of acquiring already established schools by equipping them with the state of art technology and expertise. The group leverages its global experience, networks and contacts with scientific community in providing the best educational support to the schools it is acquiring or entering into a partnership.

"Indian universities in the past could attract students far and wide from across the continents. However, we are still lagging behind in areas of accessibility and affordability of quality education. According to the ministry of Central Statistics office, more than 90% of rural and urban households had a school within 1 km in 2007-08. However, there are wide rural urban disparities in this regard as only 61.6% of rural households, compared to 82.5% of urban households, had a school within a km.

"We would like to plug-in the gaps by connecting the remote parts using technology" Dr. Srinubabu observed. According to him, OMICS Educational Society has already acquired Sri Satya Sai School and Junior College for Boys and Girls in Palakonda, located in the Srikakulam District of Andhra Pradesh. More than 5000 students have enrolled and 1200 students are pursuing various streams at the higher secondary that follows the syllabus of Board of Intermediate Education, AP.

The society prepares educational tools such as text and reference books, apart from providing the study material in the audio-visual form. Constant faculty development training, refreshing sessions and exposure to latest interactive learning techniques like participation in workshops and seminars are a must" explains Dr. Srinubabu.

Times

Indian herbal drug industry must follow good manufacturing practices: Kokate

The Indian herbal drugs industry can boost its prospects if it adheres to global quality standards and follows good manufacturing practices, said Chandrakant Kokate, former president of the Pharmacy Council of India.

"If we want to make a mark in the international market, we need strict quality control, clinical validity, quality assurance and stability of our herbal products. Infact, the good manufacturing practice for herbal formulations that has been made mandatory several years ago is not being strictly implemented by the industry," Kokate said during the inaugural session of 'Pharmacognosy-2013' in Hyderabad on Monday.

He pointed out that the market size of the global herbal drug industry is pegged at \$70.5 billion and is growing at a rate of 10%-12% per annum.

Providing an insight into the global herbal drug industry, he said, around \$3,500 million worth of herbal medicines are produced annually and approximately 1,200 single ingredient and 10,500 polyherbal formulations are registered and used in the treatment of different diseases.

However, the industry faces a huge threat as the medicinal plants are disappearing fast.

"Hundreds of medicinal plants are at a risk of extinction, threatening the discovery of future cures for diseases," S Mohan Jain from the University of Helsinki, Finland, said.

Luekoderma has cure in Unani

OUR BUREAU

"Luekoderma has cure in Unani. Our initial findings of a research project undertaken are encouraging. We are almost close to finding out a discovery of medicine that would help control spread of skin disease Vitiligo, a type of Luekoderma," said Dr MA Waheed, Director of Central Research Institute of Unani Medicine (CRIUM), on Monday in a scientific conference organised in city.

"The patients under study are given a combination of herbal medicines to study its efficacy in controlling the spread of white patches on the body," Dr Waheed informed.

He told this project was assigned by Central Council for Research in Unani Medicine under the ministry of health and family welfare. "Hyderabad has full-fledged research facility as well as a hospital attached to Central Research Institute of Unani Medicine," Dr Waheed said.

Speaking on the Unani Medicine he said Indian Unani spread globally. He also felt it is a secular medicine. "Unani treatment is said to be effective in increasing immunity levels in AIDS patients. It shows remarkable results in anti-ageing, immunomodulatory, hepato-protective, chronic inflammatory diseases, autoimmune disorders, hepatogastrointestinal disorders, hepatobiliary diseases, sexual disorders, articular and bone diseases, psychosomatic disorders, neurological disorders, skin and blood related diseases, cardio vascular diseases and life style and communicable

Dr MA Waheed, Director of Central Research Institute of Unani Medicine (CRIUM)

diseases. Unani's usefulness in dealing with cerebral palsy is also being heavily discussed now," he added.

He also said there is no Muslim association to Unani. He dismissed it as a myth. "We have practitioners from even other communities," Dr Waheed told.

Recent research has proved that Unani medicines are highly effective in treating diseases like malaria, hepatitis B, leukoderma and many skin problems also.

He participated in a three day international conference and exhibition on 'Traditional and Alternative Medicine' organised by OMICS Group, which is an open access publishing company of scientific journals.

200 delegates from across 12 countries took part in the meet.

Importance of agriculture has undiminished over centuries

OUR BUREAU

"The chief task ahead is to bridge the gap between agriculture production achievable and achieved," said Dr Mohan Kanda, addressing a three-day international conference on Agriculture and Horticultural Sciences, at Hotel Radisson Blu, on Monday. Former chief secretary, Mohan Kanda was the chief guest of the function and noted scientists like Dr EA Siddiqi, honorary director, Institute of Biotechnology, Acharya NG Ranga Agricultural University (ANGRAU), Dr Alluri Padma Raju, vice-chancellor of ANGRU, Dr John Ryan and Dr Srinubabu Gedela, CEO, OMICS Group International, also addressed the conference. Mohan Kanda said that the importance of agriculture to any society and economy had stayed undiminished over centuries. "A strong agricultural sector is necessary for food and the nutritional security as also for employment and for the welfare and well-being of the very large population all over the world. The

challenges for agriculture and farming in the 21st century are to feed a growing population using sustainable farming methods," he added.

Dr EA Siddiqi said, "India has made many technological advances in the field of agriculture since independence. These include Introduction of hybrid technology in maize and millets in mid 1950s, advent of semi-dwarf high yielding varieties of wheat and rice in mid 1960s, adoption of hybrid technology in rice since mid 1990s, introduction of exotic oilseed crops like sunflower and soybean and Hybrid technology in vegetable crops."

Giving the statistics by the end of the 20th century, Dr EA Siddiqi said, "Over 240 million people remain malnourished, over 7000 die of hunger every day, about 60% of women and children suffer from 'hidden hunger' (Protein malnutrition; Nutritional anaemia; low birth weight) and about 40 thousand children go blind every year due to vitamin A deficiency."

250 delegates from India and abroad took part in the meet.

News on OMICS

THE HINDU BusinessLine Asian biotech body Vice-President

HYDERABAD, OCT. 14: Srinubabu Gedela, Chairman and CEO of OMICS Group International, has been elected as Vice-President of Federation of Asian Biotech Association (FABA) at the general body meeting of FABA held here recently.

"Gedela's representation and services are critical in enhancing global growth of FABA," B.S. Bajaj, FABA-Secretary General, said in a release.

Call for technology breakthrough to step up farm productivity

OUR BUREAU

India will need to produce 340 million tonnes of foodgrains by 2030 to meet the demands of the population then, said noted rice scientist EA Siddiq.

Making projections on food commodities for 2030, he said, edible oils production would be 24.7 million tonnes, vegetables 243 million tonnes, fruits 181 million and milk 200 million tonnes.

He was speaking on Food Nutrition Security and Advances in Agriculture and Horticulture Research at the 3-day international conference on agriculture and horticultural

sciences, organised by OMICS Group, a publishing organisation that publishes 350 online open access science journals.

What are the challenges to meet these demands? Dr Siddiq pointed out that population growth is outpacing agricultural production, natural resource bases (water, soil health, PGR) are rapidly shrinking, large rainfed area with no technology breakthrough for higher productivity, persisting deficiency of pulses and edible oil, unfolding adverse effects of climate change, declining farm return forcing migration of rural people are some of the major ones.

Visakhapatnam lad creates platform for access to research papers

TNN | Mar 10, 2014, 06.24 AM IST

OMICS boasts of a readership base of 5 million and has so far published over 3 lakh papers from various fields of science.

VISAKHAPATNAM: Dr Srinu Babu Gadela has come a long way from a tiny village near Palkonda in Srikakulam district. The 31-year-old scientist, a product of Andhra University and Stanford, has created a platform, OMICS, which provides open access to research papers from various scientific fields to students and researchers from Third World countries.

"I hit upon the idea of an open platform, when I realized that I myself could not access certain kinds of literature required for my research work at Andhra University. The university just did not have these journals," observed Srinu Babu. Most researchers from developing countries are at a

disadvantage because many of the local universities do not possess the requisite literature in the libraries.

After bagging the World Young Scientist-2007 award from the Human Proteome organization, Srinu Babu formed the organization OMICS to allow people open access to research papers being published across the world.

"We have four centres across the globe, two in America (Los Angeles and Las Vegas), one in Romania and another in Hyderabad. As many as 750 people work there. These people liaison with various research organisations, universities and individual scientists to ensure that their papers are published on the OMICS site," said Babu. There is a team of more than 30,000 editorial board members, the world over, whose main job is to edit the papers as freelancers.

Today OMICS boasts of a readership base of 5 million and has so far published over 3 lakh papers from various fields of science.

"The origins of OMICS were rather humble. I started my own journal called the Proteomics-Bioinformatics around 2006 and published roughly about 50 articles both my own and those of others. All this was done with the help of Stanford University, the Human Proteome Organization. Today OMICS has more than 350 journals of its own," Babu said.

Babu himself has published close to 50 papers in the field of Bioinformatics and takes pride in the fact that apart from papers on science, mathematics, technology and applications, they also have started journals to publish papers in the fields of management.

The group also conducts close to a 100 seminars every year across the globe.

THE NEW INDIAN EXPRESS
TUESDAY 10 DECEMBER 2013

3-day Meet on Alternative Medicine Opens

Express News Service

A three-day 'International Conference and Exhibition on Traditional and Alternative Medicine' began here on Monday. As many as 200 delegates from 12 countries are attending the first-ever global meet held here on the subject.

The conference was inaugurated by Dr Anil Mandal of Mandal Diabetes Research Foundation, USA and Dr Mohammed R Khan, principal of Synergy Consulting, Canada. The event is an initiative of OMICS Group, publisher of open access journals in various academic fields.

Delivering the keynote address, Khan said, "In recent times there is a phenomenal growth in the global herbal market. From 1994 estimate of \$655 million, it has now grown to \$100 billion per year. As per the World Health Organisation, it will reach \$5 trillion by 2050," he said.

The surge in use of herbal medicine is due to its potential to help the body to build resistance on its own. Several cultural groups in rural areas throughout the world use these medicines and propagate their use.

Glimpses of OMICS Group Conferences

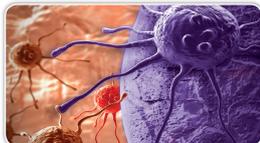

Nanotek-2013

Theme: "To Foster Novel Research and Applications of Nanotechnology"

The 3rd International Conference on Nanotek & Expo, hosted by the OMICS Group was held during December 02-04, 2013 at Hampton Inn Tropicana Las Vegas, USA. Nanotek-2013 aimed "To Foster Novel Research and Applications of Nanotechnology" and the annual conference brought together many eminent scientists from across 35 countries in which many significant research areas were discussed in depth to provide up-to-date information to the globe. On the other hand, the meeting provided an outstanding platform to communicate and interact with international experts around the world which resulted in massive exchange of knowledge leading to global exposure. Generous response and active participation were received from the Editorial Board Members of OMICS Group Journals as well as from scientists, researchers and leaders from Nanotechnology societies, government organizations and students, who made this conference one of the most successful and productive events in 2013 from OMICS Group.

Cancer Science-2013

Theme: "Innovations and Novel Therapeutic Strategies in Cancer Science"

The 3rd World Congress on Cancer Science & Therapy was organized by OMICS Group Inc., during October 21-23, 2013 in DoubleTree by Hilton Hotel San Francisco Airport, USA. Active participation and generous response were received from the Organizing Committee Members, Editorial Board Members of OMICS Group Journals, scientists, researchers, as well as experts in the cancer research, non-government organizations, and students from diverse groups who made this conference as one of the most successful and productive events in 2013 from OMICS Group. The conference was marked with the attendance of young and brilliant researchers, business delegates and talented student communities representing more than 25 countries, who have driven this event into the path of success. The conference was initiated with a warm welcome note from Honorable guests. The proceedings went through interactive sessions and panel discussions headed by Jimmy T. Efir, Brody School of Medicine, USA; honorable Moderator for the conference. The conference proceedings were carried out through various Keynote-presentations by: Dr. Stewart Sell, Wadsworth Center, US; Dr. Michael Retsky, Harvard School of Public Health, USA; Dr. Jimmy T. Efir, Brody School of Medicine, USA; Dr. Sudhakar Akul Yakkanti, Center for Cancer & Metabolism, SRI International, USA; Dr. Sherry A. Bradford, Buffalo School of Medical and Biomedical Sciences, USA.

Materials Science-2013

Theme: "Emphasis on Interdisciplinary Science & Technological Shift, Contributing to the Development of New Materials"

The 2nd International Conference and Exhibition on Materials Science & Engineering, was hosted by the OMICS Group, with the theme "Emphasis on Interdisciplinary Science & Technological Shift, Contributing to the Development of New Materials". It was held during October 07-09, 2013 at Hampton Inn Tropicana, Las Vegas, USA. The conference was initiated with a series of invited lectures delivered by both Honorable Guests and members of the Keynote Forum. The list included Dr. Isaac C. Sanchez, Professor at University of Texas, USA; Dr. Aris Christou, Professor, Department of Materials and Nuclear Engineering at University of Maryland, USA; Dr. Ramesh K. Agarwal, Professor and Director of Aerospace Engineering at Washington University, USA; Dr. Manthiram Arumugam, the Joe C. Walter Chair in Engineering and Director of the Texas Materials Institute at UT-Austin; Dr. Anil Kumar, Professor of Chemistry at IIT Roorkee, India, Dr. Dongyang Li, Professor of Chemical & Materials Engineering, University of Alberta, Canada; Dr. Zhifeng Ren, the M.D. Anderson Chair Professor in the Department of Physics and TcSUH of the University of Houston, USA; Dr. Federico Rosei, Professor and Director of National Institute of Scientific Research, Energy, Materials and Telecommunications, University of Quebec, Canada. Materials Science-2013 was supported by many organizations like American Elements, Nanotechnology Industries Association (NIA), Semiconductors Society of India (SSI), and Nanoprobiz.

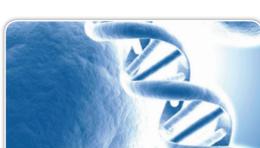

Nursing-2013

Theme: "Exploring the Current Issues and Challenges in the Path of Nursing and Emergency Medicine"

The International Conference on Nursing & Emergency Medicine, organized by OMICS Group International was successfully held at Hotel Hampton Inn Tropicana in Las Vegas, Nevada, USA during December 02-04, 2013. The conference was organized around the theme "Exploring the Current Issues and Challenges in the Path of Nursing and Emergency Medicine". The conference was marked with the presence of renowned scientists, talented young researchers, students and business delegates representing more than 35 different countries ultimately driving the event into the path of success. OMICS Group International would like to convey a warm gratitude to all the Honorable guests of Nursing-2013, Elizabeth NeSmith, Georgia Regents University, USA; Marlene M. Rosenkoetter, Georgia Regents University, USA; Anita C. All, Auburn University Montgomery, USA, Thomas Adamski, Jewish Home Lifecare, USA and Edwin G. Ralph, University of Saskatchewan, Canada. The highlights of the conference were its educative and effectual keynote lectures by: Sheryl L. Bishop, University of Texas Medical Branch, USA; Marlene M. Rosenkoetter, Georgia Regents University, USA; Melissa Geist, Tennessee Tech University, USA; Elizabeth NeSmith, Georgia Regents University, USA and Rose E. Constantino, University of Pittsburgh, USA.

Metabolomics-2013

Theme: "Advanced Research of Metabolomics in Biological Systems"

The 2nd International Conference and Exhibition on Metabolomics & Systems Biology was organized by the OMICS Group during April 08-10, 2013 at Hilton Suites Chicago/Northbrook, USA. Generous response and active participation was received from the Researchers, Omics Professionals, Principal Investigators from NIH, NASA, USDA & US Army. Celebrating and vivacious speeches were delivered by the adepts of the field like Mukesh Verma; National Institutes of Health, USA, John Ryals; Metabolon Inc., USA, Paul L. Wood; Lincoln Memorial University, USA, Jeffrey S. Patrick; LECO Corporation, USA, Chris Beecher; NextGen Metabolomics, USA, to name a few. Workshop titled "NASA Omics" moderated by Dr. Viktor Stolz, NASA Ames Research Center, USA added novel approach of Omics application in Space Biology Research. BIOCRATES Life Sciences AG, IsoSciences, Waters Corporation, Cambridge Isotope Laboratories, Inc., Thermo Fisher Scientific and ABSciex extended their tireless efforts towards designing of new tools and techniques in the sea of Metabolomics and Systems Biology adding vibe and color to the event.

Glimpses of OMICS Group Conferences

Nutritional Science-2013

Theme: "Assessing, Analyzing & Monitoring Nutritional Research"

The 2nd International Conference and Exhibition on Nutritional Science & Therapy, hosted by OMICS Group was held during July 15-17, 2013 at Courtyard by Marriott, Philadelphia, USA. Generous response was received from the Editorial Board Members of OMICS Group Journals as well as from scientists, researchers and leaders in the field of Nutritional & Food Sciences and participation from delegates, entrepreneurs and students made this conference one of the most successful and productive events in 2013 from OMICS Group.

Bacteriology-2013

Theme: "Current Concepts and Diagnosis in Bacteriology"

International Congress on Bacteriology and Infectious Diseases (Bacteriology-2013) was held during November 20-22, 2013 at DoubleTree by Hilton Baltimore-BWI Airport, Baltimore, USA. The conference was marked with the attendance of Editorial Board Members of supported OMICS Group Journals, scientists, young and brilliant researchers, business delegates and talented student communities representing more than 25 countries, who made this conference fruitful and productive.

OMICS Group has taken the privilege of felicitating Bacteriology-2013 Organizing Committee, Editorial Board Members and Keynote Speakers who supported for the success of this event. We are also obliged to various delegate experts, company representatives and other eminent personalities who supported the conference by facilitating active discussion forums. We sincerely thank the Organizing Committee Members for their gracious presence, support, and assistance.

Probiotics-2013

Theme: "Promoting Better Health by Probiotics and Functional Foods"

Like an old-quote said by Hippocrates, "Let food be thy medicine and medicine be thy food", Probiotics have acquired paramountcy. Taking this aspect into consideration, OMICS thoughtfully anchored 2nd International Conference and Exhibition on Probiotics & Functional Foods during October 23-25, 2013 at Holiday Inn Orlando, Florida, USA. The "very efficient" event was focused on the theme "Promoting Better Health by Probiotics and Functional Foods" discussing research, development and applications of Probiotics and the friendly bacteria with lots of benefits. Informative and educative keynote speeches delivered by S.K. Dash, UAS Laboratories/The Probiotic Company, USA; Gregory Leyer, UAS Laboratories/The Probiotic Company, USA; Wilhelm H Holzappel, Handong Global University, South Korea; Liubov Sichel, MirIm Biologic, USA; Min Tze Liong, Universiti Sains Malaysia, Malaysia; Shinji Fukuda, Keio University, Japan; Giuseppe Mele, Italian Observatory on the Health of Children and Adolescents Paidoss, Italy; Franco Vicariotto, San PIO X Hospital, Italy; Anthony N Mutukumira, Massey University, New Zealand; Byong H Lee, Jiangnan University, China; and Iryna Sorokulova, Auburn University, USA spread the aroma of knowledge to the community. Sponsors and Exhibitors such as UAS Laboratories/The Probiotics Company, Dupont/Danisco Nutrition & Health, MedTube, PAIDOSS (Italian Observatory on the health of children and adolescents Paidoss, Italy), Lytic Enzymes, Genova Diagnostics also contributed equally in making Probiotics-2013 a symbol of excellence.

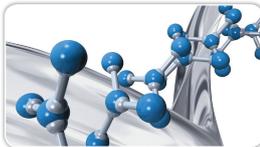

Vaccines-2013

Theme: "Recent Innovations and Benchmark Practices in Vaccines & Vaccination"

OMICS group hosted 3rd International Conference on Vaccines & Vaccination with vivacious and vibrant global stage promulgating the significance and advances in vaccines and vaccinations during July 29-31, 2013 at Embassy Suites Las Vegas, USA. The conference was initiated with a series of invited lectures delivered by both Honorable Guests and members of the keynote forum. The list included Peter L. Nara Biological Mimetics, Inc., USA; Nikolai Petrovsky Flinders University, Australia; De-chu Christopher Tang International Vaccine Institute, Korea; Brenda S Atchison The Alliance for Multispecialty Research, LLC, USA; John Martin Institute of Progressive Medicine, USA; Ara Hovanessian CNRS University Paris Descartes, France; Malcolm Thomas Arbovax, Inc., USA; Haval Shirwan University of Louisville, USA; and many more who highlighted the brilliance of the event even more. The immense support from the side of company representatives, and outside experts did add to the vibrancy of the podium.

MedChem & CADD-2013

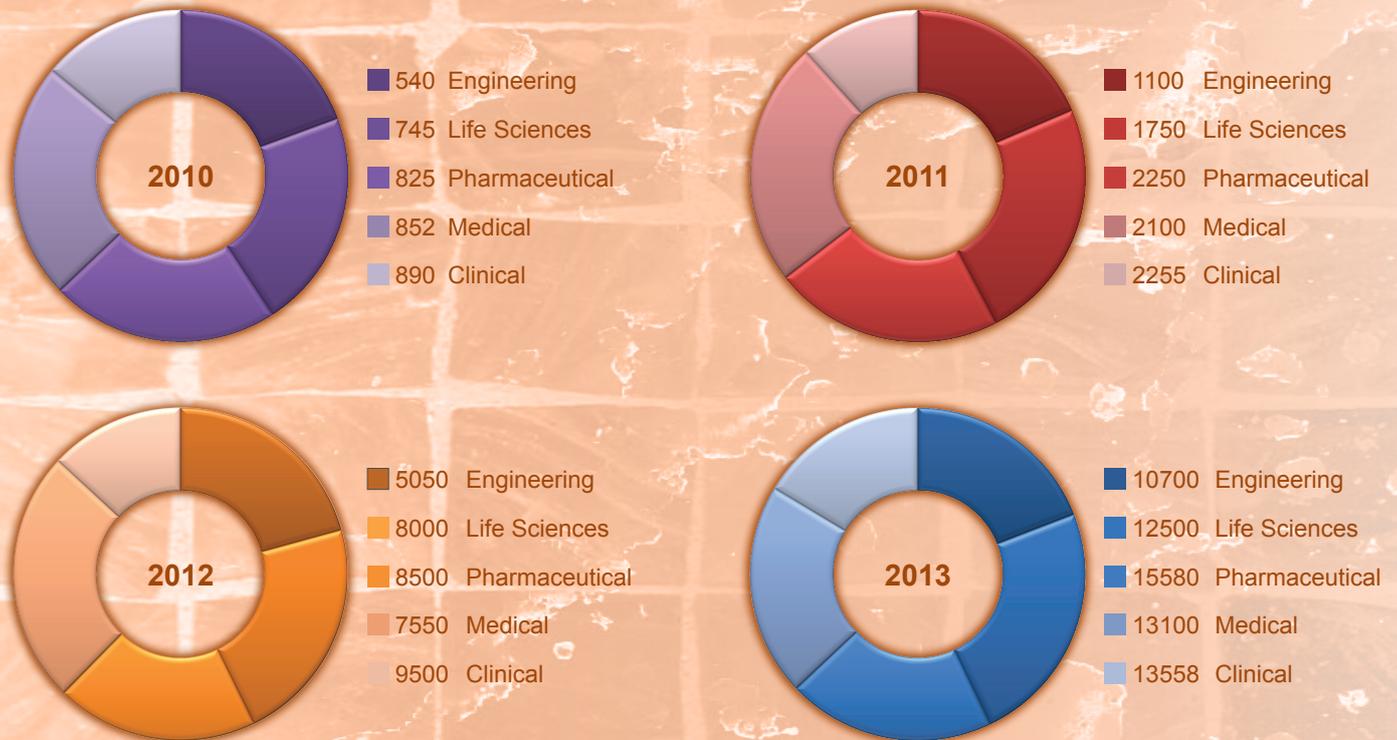

Theme: "An Insight into the Present Day World of Medicinal Chemistry & Computer Aided Drug Designing"

The 2nd International Conference on Medicinal Chemistry & Computer Aided Drug Designing, organized by OMICS Group International was successfully held at Hampton Inn Tropicana, Las Vegas, USA during October 15-17, 2013. The conference was organized around the theme "An Insight into the Present Day World of Medicinal Chemistry and Computer Aided Drug Designing" and was marked with the presence of renowned scientists, talented young researchers, students and business delegates representing more than 30 different countries ultimately driving the event into the path of success. The highlights of the conference were its educative and effectual keynote lectures by: James K Bashkin, University of Missouri-St. Louis, USA; Brian S. J. Blagg, The University of Kansas, USA; Xiang-Qun (Sean) Xie, University of Pittsburgh, USA; Tulay Aygan Atesin, The University of Texas-Pan American, USA; leveraging the event to an extravaganza. After the immense and grand response received for the MedChem & CADD-2013, OMICS Group International proudly announces the commencement of its "3rd International Conference on Medicinal Chemistry & Computer Aided Drug Designing" to be held on December 08-10, 2014 in San Francisco, USA.

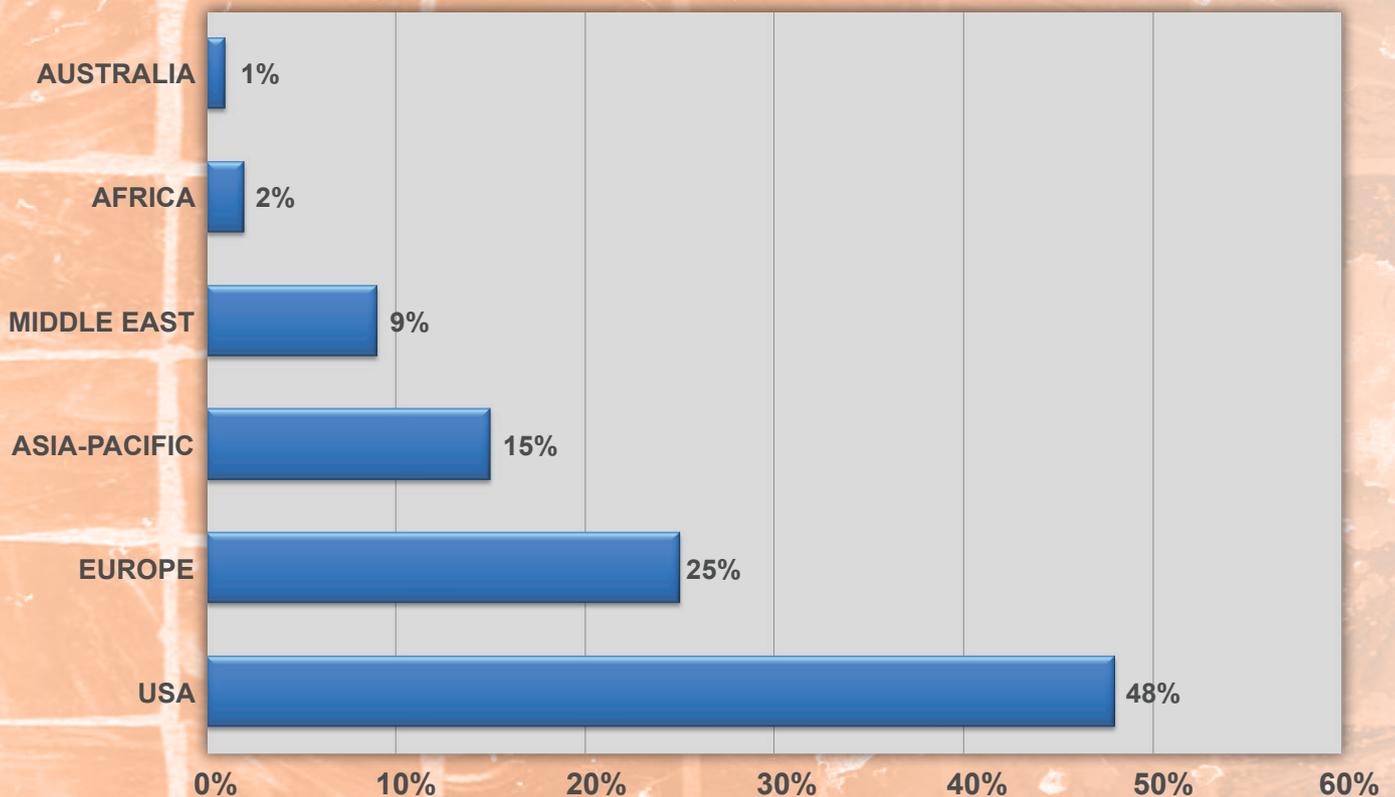

Proceedings of OMICS Group Conferences

OMICS Group Science Conferences have been witnessing a steady progress in terms of number of abstracts that are being submitted over the years. While 540, 745, 825, 852 and 890 abstracts have been presented at Engineering, Life Science, Pharmaceutical, Medical and Clinical Conferences respectively in the year 2010, the numbers have sprung up dramatically by 25% in each category by 2011. There was 300% growth in the number of abstracts presented in 2012 and this number has reached to more than 500% by 2013.

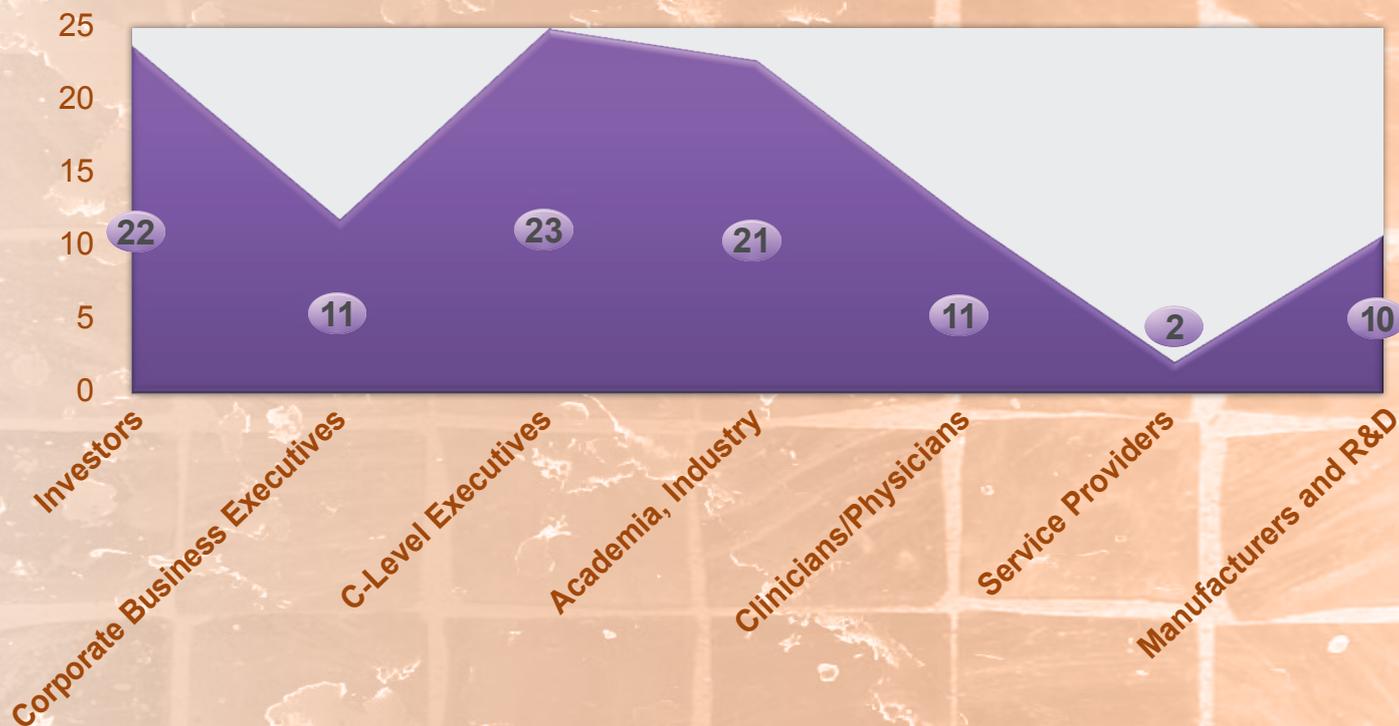

Country wise Attendance to OMICS Group Conferences

With respect to the participants region wise attending OMICS Group International Science Conferences, USA tops the list with 48% of participants, followed by Europe (25%), Asia Pacific (15%), Middle East (9%), Africa (2%) and Australia (1%).

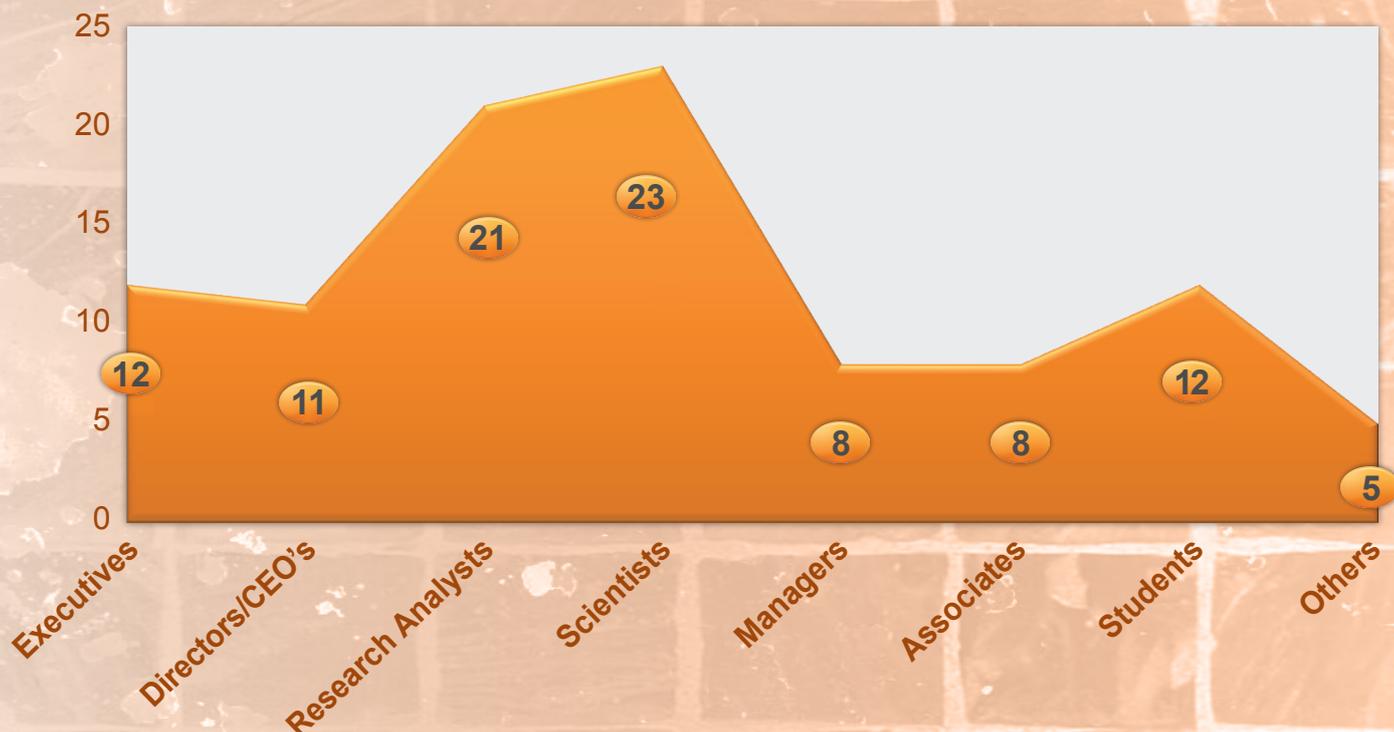

OMICS Group International-Business Conference Audience Demographics

Looking at the audience demographics of OMICS Group International Conferences, CEO level executives dominate the list with 23% of attendants followed by Investors (22%), and Academicians and Industry (21%). 11% each from corporate business executives and Clinical and Medical practitioners, 10% of Manufacturers and R&D sector and 2% of Service providers have represented the conferences.

OMICS Group International-Academic Conference Audience Demographics

OMICS Group Science Conferences are known for participation from the Scientific Fraternity (23%) followed by Research Analysts (21%), 12% each from Students & Executives, Directors/CEO (11%), and 8% of Managers and Associates.

CORPORATE PARTNER

OMICS Group Conferences welcome businesses of all sizes as sponsors of our events.

- Opportunity to organize a Symposium/Seminar/Workshop in the relevant Conference
- Free Registration for the board of directors/higher management from those associated organizations
- Product announcement at our conferences
- New initiatives-flashing in our website
- Media visibility through our website, conference, journals and E books
- Access to our members, attendees, delegates
- Advertisement banner of your products/services in respective conference and supporting journals' webpage till the day of the conference
- Display business logos on all event paraphernalia and areas around the event space
- Opportunity to showcase and demonstrate products or services
- Special Group discount to your staffs to attend the event
- Opportunity to organize a workshop at any one of our events
- Registered Organization logo will be displayed in the respective conference and supporting journal webpage with a statement "supported by"
- Registered Organization can organize a small symposium/exhibit a stall with complimentary registration pass at the event
- Full waiver on three research articles which can be published in any of the supporting journals
- Registered delegates can participate in B2B meetings

ACADEMIC PARTNER

- Advertisement banner of your products/services in respective conference and supporting journals' webpage till the day of the conference.
- Display logos on all event paraphernalia and areas around the event space
- Opportunity to organize a workshop at any one of our events
- Registered Organization logo will be displayed in the respective conference and supporting journal webpage with a statement "supported by"
- Registered Organization can organize a small symposium/exhibit a stall with complimentary registration pass at the event
- Full waiver on two research articles which can be published in any of the supporting journals
- One complimentary conference pass for the event
- 15 minute presentation slot will be given on the first day of the conference
- Special Group discount to your staffs to attend the event
- Special offers on student registration accompanying his/her professor

Denis Barritault

Université Paris Est-Créteil, France

Interesting conference, quite number of young scientists from across the globe.

Gilbert J. Placencia

Earth911 Broadcast Network, USA

Thank you for the opportunity to meet the various scientists from around the world, all bound together by our collective concern over the dramatic environmental changes evolving every day. I very much appreciate that OMICS has added this most significant issue to its mission.

Christopher Hekimian

dxd Engineering and Research, USA

It was a very well-produced event and I got a lot out of it. I made some great contacts there and I was able to communicate about new research tools to a great audience.

Jesse B. Milby

University of Alabama at Birmingham, USA

I found the conference very useful and stimulating. I found the brief time for discussion after each paper, a valuable component.

Mitchell Clionsky

Clionsky Neuro Systems, USA

We believe that the conference proved to be a stimulating blend of many disciplines and that it created numerous opportunities for participants to broaden their awareness.

Carlota Saldanha

Institute of Biochemistry, Portugal

It has an excellent particularity: The same topic is approached in different sessions, which is a motif to motivate the participants to share their knowledge.

Michael Retsky

Harvard School of Public Health, USA

The conference was good. There was a chance to meet and speak with everyone. I learnt more about them. This kind of light social exchange is very useful. Attendees were an interesting group. Thanks for your work.

Harish C. Pant

NIH, USA

It was an honor and pleasure. Looking forward to your wonderfully organized conference in 2014.

Patricia A. Broderick

The Sophie Davis School of Biomedical Education, CCNY, CUNY, USA

It was a pleasure and always is, to work with OMICS Group.

Richard J. Frink

Heart Research Foundation of Sacramento, USA

The conference went very well, lots of enthusiastic investigators were there and that is always good.

Jeffrey Zheng

Yunnan University, China

It is nice to get this opportunity in the conference. I enjoyed with the audience of the conference and interesting works presented. From an academic viewpoint, I feel that I found an interactive place for new thinking. Thanks for your excellent work.

S. Patricia Becerra

National Eye Institute, USA

Thank you for inviting me to participate in the Ophthalmology meeting, I wish you all the best.

Richard Charnigo

University of Kentucky, USA

Thank you for your substantial efforts in coordinating Biometrics 2013, which was very successful. Attendees were able to meet and interact with their colleagues and peers from across the nation and the world.

Svetlana Chapoval

University of Maryland, USA

I would like to thank the organizing committee for the opportunity to present our research at this important and interesting meeting which I highly enjoyed.

Hem D. Shukla

University of Maryland, USA

Thank you for all your help and it was a great conference and really enjoyed all other talks.

Csilla Ari

University of South Florida, USA

All together it was a very useful conference for the manta ray experts and I was very impressed with the generally good quality of talks.

Emily Clionsky

Clionsky Neuro Systems, USA

Based on what I saw and with whom I spoke, I am sure that all enjoyed a productive and worthwhile experience. I thereby encourage everyone from the scientific field to support OMICS Journals by submitting their work for publication.

NP Lemos

University of California, USA

I was pleased to have participated in the symposium and to have shared my knowledge and expertise with colleagues from all over the world.

Eduard Rogatsky

Albert Einstein College of Medicine, USA

Thank you for your invitation and for the opportunity to present Keynote lecture. I am interested to support Biomarkers in future and want to write a report about the success of Biomarkers 2013.

George Schroeder

American Academy of Urgent Care Medicine, USA

The conference was outstanding and looking forward to next year on my same subject of Bioactive Molecules. I was delighted to meet all of your excellent and dedicated staff and all of the marvelous Scientists who added great value to Oceanography-2013.

Marlene Shehata

Marlene Shehata Pharmaceuticals, Canada

It was truly a great success. The conference was enriching with the newest research being done all over the world. Thank you for the excellent organization.

Francesca Patrignani

University of Bologna, Italy

I appreciate the conference very much for its organization, themes and also for the networking purpose. Time spent was very useful. Hoping to have new chance to attend the next year conference.

2 nd International Conference on Women's Health, Gynecology and Obstetrics May 18-20, 2015 San Antonio, USA	International Congress on Neuroimmunology & Therapeutics July 20-22, 2015 San Francisco, USA	4 th International Conference and Exhibition on Pharmacovigilance & Clinical Trials August 17-19, 2015 London
3 rd International Conference on Pediatrics May 18-20, 2015 San Antonio, USA	5 th International Conference on Clinical & Experimental Ophthalmology July 20-22, 2015 San Francisco, USA	International Conference on Business Economics of Broadcasting Media & Film Industry August 17-19, 2015 London
4 th International Conference and Exhibition on Occupational Health & Safety May 25-26, 2015 Toronto, Canada	International Conference on Aquaculture and Fisheries July 20-22, 2015 Australia	International Conference on Frequently occurring infectious diseases, its prevention and Novel therapeutics August 17-19, 2015 London
2 nd International Conferences on Gerontology and Geriatrics May 25-27, 2015 Toronto, Canada	World Congress on Pharmacology July 20-22, 2015 Australia	International Conference on GIT Diseases and Therapeutics August 24-26, 2015 Valencia, Spain
6 th World Congress on Biotechnology May 25-27, 2015 Toronto, Canada	2 nd International Conference on Animal Science July 20-21, 2015 Australia	International Pediatric Cardiology Summit August 24-26, 2015 Valencia, Spain
International Summit on Big Data Analysis and Data Mining June 08-10, 2015 Chicago, USA	4 th International Conference on Earth Science & Climate Change July 27-29, 2015 Rome, Italy	World Congress on Beneficial Microbes: Food, Pharma, Aqua & Beverages Industry August 24-26, 2015 Valencia, Spain
International Conference on Pain Medicine June 08-10, 2015 Chicago, USA	4 th International Conference and Exhibition on Neurology & Therapeutics July 27-29, 2015 Rome, Italy	Pharma Europe August 26-28, 2015 Valencia, Spain
	4 th International Conference on Tissue Science & Regenerative Medicine July 27-29, 2015 Rome, Italy	

International Congress and Expo on Biofuels & Bioenergy August 26-28, 2015 Valencia, Spain	World Congress on The New Directions in Synthetic Biology September 28-30, 2015 Philadelphia, USA	4 th International Conference and Exhibition on Probiotics & Functional Foods November 02-04, 2015 Valencia, Spain
3 rd International Conference and Exhibition on Traditional & Alternative Medicine August 31-September 02, 2015 Valencia, Spain	4 th International Conference on Forensic Research & Technology September 28-30, 2015 Boston, USA	3 rd International Conference on Hematology & Blood Disorders November 02-04, 2015 Atlanta, USA
3 rd International Conference and Exhibition on Lasers, Optics and Photonics August 31-September 02, 2015 Valencia, Spain	5 th World Congress on Cancer Science & Therapy September 28-30, 2015 Boston, USA	3 rd World Congress on Endocrinology November 02-04, 2015 Atlanta, USA
6 th International Conference and Exhibition on Analytical & Bioanalytical Techniques August 31-September 02, 2015 Valencia, Spain	4 th International Conference and Exhibition on Biosensors & Bioelectronics September 28-30, 2015 Boston, USA	4 th International Conference on Medicinal Chemistry & Computer Aided Drug Designing November 02-04, 2015 Atlanta, USA
3 rd International Conference on Predictive, Preventive, Personalized Medicine & Molecular Diagnostics August 31-September 02, 2015 Valencia, Spain	4 th International Conference on Clinical Microbiology & Microbial Genomics October 05-07, 2015 Philadelphia, USA	4 th International Conference and Exhibition on Biometrics & Biostatistics November 16-18, 2015 San Antonio, USA
Exposure on Foreign Languages - A Global Conference August 31-September 02, 2015 Valencia, Spain	4 th International Summit on Toxicology October 05-07, 2015 Philadelphia, USA	Human Brain vs Intelligent agents - A Global Colloquium on Artificial Intelligence November 16-18, 2015 San Antonio, USA
3 rd International Conference on Psychology, Autism & Alzheimer's Disease August 31-September 02, 2015 Toronto, Canada	3 rd International Conference on Dental & Oral Health October 05-07, 2015 Philadelphia, USA	5 th International Conference on Nanotek & Expo November 16-18, 2015 San Antonio, USA
3 rd International Conference on Radiology & Imaging August 31-September 02, 2015 Toronto, Canada	2 nd International Summit on Industrial Engineering October 05-07, 2015 Dubai, UAE	Industrial Hygiene and Biosafety Summit November 16-18, 2015 China
6 th International Conference on Biomarkers & Clinical Research August 31-September 02, 2015 Toronto, Canada	International Conference on Emergency Medicine October 05-07, 2015 Dubai, UAE	International Conference on Nano and Supramolecular Chemistry November 16-18, 2015 China
4 th International Conference and Exhibition on Addiction Research & Therapy September 14-16, 2015 Florida, USA	5 th International Conference on Vaccines & Vaccination October 19-21, 2015 San Francisco, USA	3 rd International Conference on Agricultural & Horticultural Sciences November 16-18, 2015 China
4 th International Conference and Exhibition on Materials Science & Engineering September 14-16, 2015 Florida, USA	3 rd International Conference and Exhibition on Mechanical & Aerospace Engineering October 19-21, 2015 San Francisco, USA	4 th International Summit on GMP, QA & QC November 30-December 02, 2015 Hyd, India
5 th International Conference on Proteomics & Bioinformatics September 14-16, 2015 Florida, USA	3 rd International Conference on Nursing & Emergency Medicine October 19-21, 2015 San Francisco, USA	3 rd International Conference and Exhibition on Pharmacognosy, Phytochemistry & Natural Products November 30-December 02, 2015 Hyd, India
Annual Congress on Antibodies September 14-16, 2015 Las Vegas, USA	4 th International Conference and Exhibition on Nutrition & Food Sciences October 26-28, 2015 Chicago, USA	International Conference and Exhibition on Yoga and Physiotherapy November 30-December 02, 2015 Hyd, India
Symposium on Enzyme and Biocatalysis September 14-16, 2015 Las Vegas, USA	6 th World Congress on Bioavailability & Bioequivalence: Pharmaceutical R&D Summit October 26-28, 2015 Chicago, USA	3 rd International Conference on HIV/AIDS, STDs & STIs November 30-December 02, 2015 Atlanta, USA
International Conference on Diabetes Therapies and Drug Targets September 14-16, 2015 Las Vegas, USA	Global Summit on Information and Communication Technology, Electronic and Electrical Engineering October 26-28, 2015 Chicago, USA	3 rd World Congress on Petrochemistry and Chemical Engineering November 30-December 02, 2015 Atlanta, USA
3 rd International Conference on Functional and Comparative Genomics & Pharmacogenomics September 21-22, 2015 San Antonio, USA	4 th International Conference and Exhibition on Biowaivers & Biosimilars October 26-28, 2015 Baltimore, USA	4 th International Conference on Surgery and Anesthesia November 30-December 02, 2015 Atlanta, USA
2 nd International Conference on Computer Graphics and Media Design September 21-23, 2015 San Antonio, USA	4 th International Conference on Translational Medicine October 26-28, 2015 Baltimore, USA	4 th International Conference and Exhibition on Obesity & Weight Management December 07-09, 2015 Atlanta, USA
World Summit on Parasitology September 21-23, 2015 San Antonio, USA	4 th International Conference and Exhibition on Orthopedics & Rheumatology October 26-28, 2015 Baltimore, USA	3 rd International Summit on Clinical Pharmacy & Dispensing December 07-09, 2015 Atlanta, USA
5 th International Conference on Pharmaceutical Regulatory Affairs September 28-30, 2015 Philadelphia, USA	6 th World Congress on Diabetes & Metabolism November 02-04, 2015 Valencia, Spain	5 th World Congress on Virology December 07-09, 2015 Atlanta, USA
4 th International Conference on Clinical & Cellular Immunology September 28-30, 2015 Philadelphia, USA	3 rd International Congress on Bacteriology & Infectious diseases November 02-04, 2015 Valencia, Spain

About OMICS

OMICS Group International is a blend of Open Access publications and worldwide International conferences and scientific events. OMICS Group thrives for Open Access mission and is thus bound to contribute towards the global research and scholarly groups, with a principal formula of "Accelerating Scientific Discovery" universal. OMICS Group has a pride on its assets which are 350 peer reviewed Open Access journals and organizes over 100 International conferences along with well organized International symposiums, National workshops, world-class exhibitions and business meetings. OMICS Group Open access is being supported by 3.5 million readers, 30,000 Editorial members and 35,000 reviewers in major. OMICS Group has made an incredible achievement through perfect efforts in collaborating and associating with 150 scientific associations across the world. OMICS Group Meetings provides perfect platform where researchers and business professionals can share and discuss the latest finding all around the globe.

Journal of Vaccines & Vaccination	J Vaccines Vaccin	1.565	6.31
Journal of Veterinary Science & Technology		0.5	4.66

Impact Factor Calculation:

*Unofficial 2012 Impact Factor was established by dividing the number of times, articles published in 2010 and 2011 were cited in 2012 based on a search of the Google Scholar Citation Index database, by the number of articles published in the previous two years (2010 and 2011).

X = the number of times, articles published in 2010 and 2011, were cited by indexed journals during 2012.

Y = the total number of "citable items" published by that journal in 2010 and 2011.

2012 Impact Factor (IF) = X/Y

(Ref: http://en.wikipedia.org/wiki/Impact_factor) Index Copernicus Value Calculation: <http://journals.indexcopernicus.com/info.php>

Dirk Marcel Dhossche, USA

Autism-Open Access is a new initiative that has maintained a steady stream of articles on innovative pre-clinical and clinical developments in autism research and practice. I have been particularly impressed with the intellectual vision of the journal to include contributions on critical changes in the upcoming DSM-5 regarding new criteria for the Autism Spectrum Disorders, the deletion of Asperger Disorder, and the creation of a new "Catatonia NEC, in acknowledgement of catatonia as an important comorbid condition in Autism Spectrum Disorder.

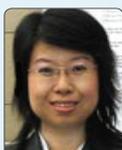

Tibebe Woldemariam, USA

I appreciate your original and quality sources of information including case reports, unique research and review articles on efficacy, safety and adverse effects of currently available pharmaceutical products. Thank you so much "Journal of Pharmacovigilance".

Debalina Sarkar, USA

Journal of Proteomics & Bioinformatics is an excellent open access platform for research in the field. This journal has come quite a way in attaining its goal of publishing the exciting researches. It also provides a rapid turn-around time for reviewing and publishing and to distribute the articles freely for research, teaching and reference purposes. I look forward for its future progress in the field of science. I am sure this journal will soon be recognized in a far larger crowd."

Hanrui Zhang, USA

I highly recommend publication in the Journal of Obesity and Weight Loss Therapy. The entire submission, review and publication process for the journal are easy and quick. The reviews are very professional and helpful.

Elzbieta Miller, Poland

Journal of Novel Physiotherapies is very important journal focused on current development in physiotherapy. Review processing is fast and the qualities of the reviews are excellent. I highly recommend this journal. Don't hesitate to submit manuscript to this Publisher.

Geoffrey Burnstock, UK

The Journal of Cytology & Histology has admirable aims to publish exciting research papers with a rapid turnover time. Publications are widely distributed through the Internet. There is a flexible policy that accepts not only experimental papers and reviews, but also online Letters to the Editor and Comments about published articles. I enthusiastically recommend sending papers for consideration by this journal.

Jiapeng Huang, USA

Journal of Spine publishes cutting edge researches and opinions in the field of spine. The Journal of Spine helps to expand the knowledge and skills of world class experts. This journal is an invaluable source for anyone who has interest in the spine.

Charles Doarn, USA

As the 21st Century unfolds before our eyes, we will be amazed at the innovation and discovery of new technologies in bioengineering and biomedical sciences. These discoveries will help unlock the tools for addressing health issues that we face as a global community. The Journal of Bioengineering and Biomedical Sciences is an ideal platform for sharing knowledge and experiences.

Bruce Rothschild, USA

The Journal of Primatology provides an essential service - open accessibility. This not only facilitates ongoing education, but also provides a facile mechanism to share ideas. Interdisciplinary efforts have become the norm. The Journal of Primatology provides the forum for such efforts. Editorials and interdisciplinary articles provide insights to the current state of the science and opportunities for future exploration.

Richard Charnigo, USA

I have been involved with the Journal of Biometrics and Biostatistics since 2010, first as an Editorial Board member and later as an Editor-in-Chief. The journal's open access model provides a convenient source of contemporary literature in biometrics and biostatistics. This is very helpful to researchers who are developing new methods and exploring new applications in these areas.

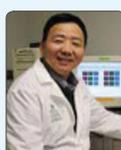

Alan Tackett, USA

It has been an absolute pleasure serving on the editorial board and as a contributing author for the Journal of Proteomics and Bioinformatics. The Journal of Proteomics and Bioinformatics is at the forefront of research and provides streamlined dissemination of cutting-edge research. I fully anticipate that the journal will continue to be one of the top in the field as it moves into the future.

Ronald Vender, USA

This is an excellent open act of publication where there is a convenience of being able to share this paper with colleagues and other educational institutions easily through e-mail. In addition to this the impact factor is constantly being monitored and available on line through the google scholar citation index database. With all of these features it makes the Journal of Clinical Trials an exciting source for publishing your innovative research papers.

Guan Chen, USA

Journal of Pharmacogenomics & Pharmacoproteomics is a new forum to publish discoveries made in the integrated field of pharmacology, molecular biology, and genetics.

Eldad Zacksenhaus, Canada

The Journal of Cancer Science & Therapy is posed to publish breakthroughs & since its inception, the journal has published 245 peer-reviewed articles which offer a speedy peer-reviewed process. This is a very promising start for a new journal, and it will undoubtedly surge to become a prominent journal in the field once it is indexed in PubMed (pending).

Farid Sadaka, USA

My experiences as a member of the editorial board, as a peer reviewer and as an author, have all been very rewarding, and so I would like to encourage investigators to seriously consider submitting their quality work to Journal of Blood Disorders & Transfusion

Shapiro I Joseph, USA

As an editor, and a contributing author I am personally excited and enthusiastic about this project, and feel optimistic that the journal will grow rapidly. I would like to encourage investigators and thought leaders in the field to support this endeavour and contribute to the Journal of Hypertension: Open Access.

We work for Societies

SciTechnol welcome associations to share scientific activities with each other and look for ways to work together in partnerships. We are anxious in associating with groups involved with science communication and diverse backgrounds including academia, education, public sector, industry and professional/learned societies etc. to make collaborations and enrich scientific activities with new ideas.

Our Partnerships

SciTechnol journals support and are supported by a number of societies includes:

- *Stem Cell Research Italy*
- *Saudi Society for Obstetrics and Gynecology*
- *SMBI- The Moroccan Society of Bioinformatics*
- *Lebanese Society of Obstetrics & Gynecology*
- *Obstetrical & Gynecological Society of Sudan*
- *Bulgarian Rhinologic Society*
- *Society of Otolaryngologists & Head Neck Surgeons of Bangladesh*
- *European Nanoscience and Nanotechnology Association*
- *Nanopaprika.eu - The International NanoScience Community*
- *The Moroccan Society of Bioinformatics*
- *Tourism Research Centre, Chinese Academy of Social Sciences*
- *International Conference on Hospitality & Tourism Marketing*
- *2nd Bulgarian-Italian Meeting on Rhinology*
- *4th Emirates Rhinology & Otology Conference-2014*
- *Asia-Pacific Social Science Conference-2014*
- *African Association of Remote Sensing of the Environment Conference Proceedings-AARSE*
- *International Conference on Hospitality, Leisure, Sport, and Tourism-2014*

Benefits of partnering with us include:

- *Increased visibility*
- *Enhanced profile*
- *Effective co-marketing and promotional strategies*
- *News letters*
- *Sponsorship opportunities*
- *Waivers on publications*
- *Publishing services*
- *Memberships*

SciTechnol is a subscription based online publisher, running 52 international journals across the globe in various pedagogic fields.

The mission of SciTechnol is to bring quality research that distributes knowledge to wide range of academic and scientific communities.

OMICS Group Membership

The OMICS Group's Membership Program, initiated to accomplish the vision of making Healthcare & Scientific Information Open Access, enables academic and research institutions, societies, groups, funding organizations and corporations to actively support open access in scholarly publishing and also support the participation of its representatives and students in International Conferences.

Membership is now available for the scientific societies / corporate companies / universities / institutes / individuals / students.

Individual Membership

Annual Membership

1. Member can submit unsolicited number of articles to any of the OMICS Group Journals
2. Member will get waiver on registration for any one OMICS Group Conference
3. Member will get a prestigious certificate of Annual membership from OMICS Group
4. Member can submit a single chapter of their research works in any of the proposed e-books of OMICS Group for free of cost. For more details on e-books, please log on to: <http://esciencecentral.org/ebooks/>

Three-Year Membership

1. Member can submit unsolicited number of articles to any of the OMICS Group Journals
2. Member will get waiver on registration for any two OMICS Group Conferences
3. Member will get a prestigious certificate of Three-year membership from OMICS Group
4. Member can submit maximum of 2 chapters of their research work in any of the proposed e-books of OMICS Group for free of cost
For more details on e-books, please log on to: <http://esciencecentral.org/ebooks/>
5. Members will be honored by giving the title MAOG [Member, Association of OMICS Group]
For example: Dr. B. Kosecik Ph.D., MAOG

Five-Year Membership

1. Member can submit unsolicited number of articles to any of the OMICS Group Journals
2. Member will get waiver on registration for any four OMICS Group Conferences
3. Member will get a prestigious certificate of Five-year membership from OMICS Group
4. Member can submit maximum of 4 chapters of their research work in any of the proposed e-books of OMICS Group for free of cost
For more details on e-books, please log on to: <http://esciencecentral.org/ebooks/>
5. Members will be honored by giving the title MAOG [Member, Association of OMICS Group]
For example: Dr. B. Kosecik Ph.D., MAOG

Institutional Membership

Institutional Membership is offered for universities, research/educational institutes.

Annual Membership

1. Registered university/institute can submit unsolicited number of articles to any of the OMICS Group Journals
2. Registered university/institute (for two representatives) will get waiver on registration for any one OMICS Group Conference
3. Registered university/institute will get a prestigious certificate of Annual membership from OMICS Group
4. Registered university/institute can submit a single chapter of their research works in any of the proposed e-books of OMICS Group for free of cost. For more details on e-books, please log on to: <http://esciencecentral.org/ebooks/>
5. Registered university/institute logo will be displayed in the OMICS Group website with a statement "supported by"

Three-Year Membership

1. Registered university/institute can submit unsolicited number of articles to any of the OMICS Group Journals
2. Registered university/institute (for two representatives) will get waiver on registration for any two OMICS Group Conferences
3. Registered university/institute will get a prestigious certificate of Three-year membership from OMICS Group
4. Registered university/institute can submit maximum of 3 chapters of their research work in any of the proposed e-books of OMICS Group for free of cost. For more details on e-books, please log on to: <http://esciencecentral.org/ebooks/>
5. Registered university/institute logo will be displayed in the OMICS Group website with a statement "supported by"

Five-Year Membership

1. Registered university/institute can submit unsolicited number of articles to any of the OMICS Group Journals
2. Registered university/institute (for two representatives) will get waiver on registration for any three OMICS Group Conferences
3. Registered university/institute will get a prestigious certificate of Five-year membership from OMICS Group
4. Registered university/institute can submit maximum of 5 chapters of their research work in any of the proposed e-books of OMICS Group for free of cost. For more details on e-books, please log on to: <http://esciencecentral.org/ebooks/>
5. Registered university/institute logo will be displayed in the OMICS Group website with a statement "supported by"

Corporate Membership

Corporate Membership is offered for industries and companies/organizations.

Annual Membership

1. Registered organization can submit unsolicited number of articles to any of the OMICS Group Journals
2. Registered organization will get a prestigious certificate of Annual membership from OMICS Group
3. Registered organization can submit 2 chapters of their research work in any of the proposed e-books of OMICS Group for free of cost. For more details on e-books, please log on to: <http://esciencecentral.org/ebooks/>
4. Advertisement banner of your products/services in OMICS Group website for a limited span of 1 month
5. Opportunity to organize a workshop at any one of our events
6. Registered organization logo will be displayed in the OMICS Group website with a statement “supported by”
7. Registered organization can organize a small symposium/exhibit a stall with complimentary registration pass at one of your interested events

Three-Year Membership

1. Registered organization can submit unsolicited number of articles to any of the OMICS Group Journals
2. Registered organization will get a prestigious certificate of Three-year membership from OMICS Group
3. Registered organization can submit maximum of 4 chapters of their research work in any of the proposed e-books of OMICS Group for free of cost. For more details on e-books, please log on to: <http://esciencecentral.org/ebooks/>
4. Advertisement banner of your products/services in OMICS Group website for a limited span of 45 days annually
5. Opportunity to organize a workshop at any one of our events
6. Registered organization logo will be displayed in the OMICS Group website with a statement “supported by”
7. Registered organization can organize a small symposium/exhibit a stall with complimentary registration pass at two of your interested events
8. Registered organization can avail 10% discount on exhibit stalls at all of our International Conferences

Five-Year Membership

1. Registered organization can submit unsolicited number of articles to any of the OMICS Group Journals
2. Registered organization will get a prestigious certificate of Five-year membership from OMICS Group
3. Registered organization can submit maximum of 7 chapters of their research work in any of the proposed e-books of OMICS Group for free of cost. For more details on e-books, please log on to: <http://esciencecentral.org/ebooks/>
4. Advertisement banner of your products/services in OMICS Group website for a limited span of 2 months annually
5. Opportunity to organize a workshop at any one of our events
6. Registered organization logo will be displayed in the OMICS Group website with a statement “supported by”
7. Registered organization can organize a small symposium/exhibit a stall with complimentary registration pass at four of your interested events
8. Registered organization can avail 15% discount on exhibit stalls at all of our International Conferences

Student Membership

1. Waiver on Article processing charges for 2 articles annually in any of OMICS Group Journals
2. Registered student can submit a single chapter of his/her research works in any of the proposed e-books of OMICS Group for free of cost. For more details on e-books, please log on to: <http://esciencecentral.org/ebooks/>
3. Waiver on poster presentation in any one of the OMICS Group Conferences
4. Opportunity to attend OMICS workshops at any one of the OMICS Group Conferences
5. Active student members would be considered to serve on Student Organizing Committee for our future conferences

Note: Student will need to provide a letter from supervisor or mentor on institutional letterhead, confirming student status and, thus, eligibility for student membership.

All the registered members will be receiving the proceedings of interested OMICS Group Conferences upon request and alerts of the most viewed articles published in our Journals through mail.

MEMBERSHIP	ANNUAL	THREE YEARS	FIVE YEARS
Individual	\$ 5000	\$ 10000	\$ 15000
University/Institute	\$ 10000	\$ 18000	\$ 25000
Industry/Organization	\$ 15000	\$ 23000	\$ 30000
Student	\$ 300	N/A	N/A

*OMICS Group has all rights to change the above benefits where and when required.
