I hereby express my great interest in continued service to the Journal of Air and Water Borne Diseases as an Editor, Author and Reviewer. I further give my consent to disclose by the Journal my affiliation and contact information. I do not have any conflict of interest, which would interfere with this important service for science, medicine, and technology communities.

I strongly recommend this journal to be indexed in PubMed Central. The journal staff and editorial board members have worked very hard for the journal to establish its high professional standing, and indexing will help this journal move forward with publishing high quality research.
