To Whom it may concern,

The Journal of Novel Physiotherapies, have been incredibly professional and efficient with the submission, peer review and publication process of the scientific work within my field. In order to further the interest and development of this individual journal, I believe they would benefit from gaining indexing within PubMed.

I strongly recommend the Journal of Novel Physiotherapies to be indexed in PubMed Central. The Journal staff and editorial board members have worked very hard for the journal to establish its high professional standing.

Yours Sincerely,

Dr David W Shields
