This letter is intended to recommend the journal "*Journal of Blood Disorders and Transfusion*" for indexing in Pub Med. I am one of the editors, and with the rest of the editors have worked hard on for the journal in order to establish the highest professional standard and rapid and excellent review of potential manuscripts. I believe that the scientific community would surely benefit from more extensive dissemination of the science published in the *Journal of Blood Disorders and Transfusion*, and this could be more completely achieved through indexing in Pub Med.

Sincerely,

A handwritten signature in red ink, appearing to read "Farid Sadaka".
