Re: Recommendation letter for JGSGT indexing in PubMed

To whom it may concern,

As a member of the editorial board of the Journal of Genetic Syndromes & Gene Therapy (JGSGT) I highly recommend this journal to PubMed. The area of gene therapy became so important that this journal that published excellent papers in this area deserves to be indexed in PubMed. The editorial board members and journal staff have worked very hard for the journal to establish its high professional standing and there by recommending this journal to be indexed in PubMed.

Sincerely yours,

Dr. Gang Zhang,
