Dear colleagues,

Herewith I would like to express my deepest support for the Journal of Clinical & Experimental Cardiology, which with the help of its reviewers and editors is constantly improving in terms of quality and is running ahead with better and many quality publications. The editorial board members and journal staff have worked very hard for the journal to establish its high professional standing and therefore I highly recommend this journal to be indexed in PubMed.

With kind regards,

Prof. Dr. Grigorios Korosoglou
