Dear Review Committee,

I am an Editorial Board Member of the journal of **Endocrinology & Metabolic Syndrome**. I write in strong support of the journal for consideration to be indexed in PMC. The journal of Endocrinology and Metabolic Syndrome has been releasing regular issues and special issues regularly with manuscripts of international significance. All the Editorial Board Members have been working diligently to maintain transparent and high standard peer review, which ensure high quality and speedy publication in the journal. The journal has been contributing significantly to the mechanistic studies/ therapeutics for metabolic syndrome and will continue to exert sustained impact to the progress of the field.

Therefore, I strongly recommend this journal to be indexed in PubMed Central. The Journal staff and editorial board members have worked very hard for the journal to establish its high professional standing.

Sincerely,

Hanrui Zhang MD PhD
