**Dear Sirs,**

I hereby express my great interest in continued service in Journal of Cell Science & Therapy as an author. I further give my consent to disclose by the Journal my affiliation and contact information. I do not have any conflict of interest, which would interfere with this important service for science, medicine, and technology communities.

I strongly recommend this journal to be indexed in PubMed Central. Journal staff and editorial board members have worked more than very hard for the journal to establish its high professional standing.

Peer review of my manuscript

Riede,I. (2012)

Inhibition of Apoptosis in ALL-1 Leukemic Cell Lines: Allowance of Replication, Constant Repair Replication, Defect DNA Damage Control

J Cell Sci Ther 3:133

doi:10.4172/2157-7013.1000133

was overwhelming. Several referees and the editor sent pages of fruitful recommendations, very helpful for improving the content of the manuscript. During this outstanding review process, the comprehensibility of the very complex biochemistry enhanced. As I personally surf in PubMed daily, to research literature for possibilities in tumor therapy, I appreciate to find this Journal as well there.
