Re: National Library of Medicine

Building 38A-Room 4N-419

8600 Rockville Pike

Bethesda, MD 20894

Sirs:

I enthusiastically support indexing of this journal to Pub Med. As an editorial board member, I believe this journal will contribute effectively and significantly to the world body of literature on these subjects.

The editorial board members and journal staff have worked hard to maintain a high level of professionalism and I have every reason to believe the journal will be successful and grow.

Sincerely,

Jeffry L Kashuk MD FACS

Director of Surgical Research and Academic Development

EmCare Acute Care Surgery

Dallas, TX
