RE: Recommendation letter for PubMed indexing

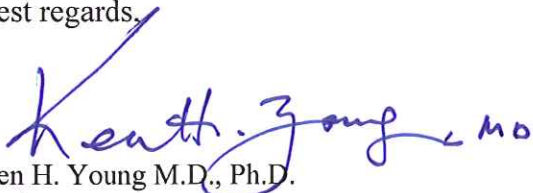

To Whom It May be Concerned,

Journal of Chemotherapy has been releasing regular issues and the quality of manuscripts that we have published has impressed the Scientific Community.

We are planning to submit our journal for indexing in PMC, please view this letter as a strong support and recommendation for indexing of our journal in PMC. If successful, it would be mutually beneficial for our authors and in turn for the development of the journal in support of the scientific communications.

As such, I strongly recommend the Journal of Chemotherapy to be indexed in PubMed Central. The Journal staff and editorial board members have worked very hard for the journal to establish its high professional standing.

Best regards,

Ken H. Young M.D., Ph.D.
Professor
