I, Minghua Zhang, hereby express my great interest in continued service in Journal of Geology & Geosciences as an Editor. I further give my consent to disclose by the Journal my affiliation and contact information. I do not have any conflict of interest, which would interfere with this important service for science, medicine, and technology communities.

I strongly recommend this journal to be indexed in

Web of Science

GeoRef (which specializes in Geology)

SciFinder (formerly Chem Abstracts)

MathSciNet (since some of their papers may be mathematical enough for that database)

(1) Earthquake Engineering Abstracts, (2) Water Resources Abstracts and (3) Oceanic Abstracts (all 3 now owned by ProQuest)

Academic Search Complete [owned by Ebsco]

AAPG [American Association of Petroleum Geologists] Datapages

Compendex [the world's biggest engineering index] Journal staff and editorial board members have worked very hard for the journal to establish its high professional standing.

The major online search engines/indexes, like

Scirus - <http://www.scirus.com/>

SCImago - <http://www.scimagojr.com/>

Index Copernicus - http://journals.indexcopernicus.com/index.php?lang=en_US

....and many others

If you need further information, please feel free to contact me.
