Recommendation letter for the Journal of Spine

Dear Sirs,

I am writing this letter to recommend the Journal of Spine for the indexing in PubMed.

Journal of Spine is an Open Access, peer reviewed journal that aims to publish most complete and exciting researches regarding the discoveries and current developments in the field of Spine, in the mode of original articles, review articles, case reports, short communications, etc. The journal provides a rapid reviewing and publishing, disseminating the articles freely for research, teaching and reference purposes.

The Journal of spine is constantly improving and is running ahead with better and many quality publication. The editorial board members, which I play a part form 2012, and journal staff have worked very hard for the journal to establish its high professional standing and international reputation and thus I highly recommend this journal to be indexed in PubMed.

Yours sincerely,

Miranda Mladinic
