Dear Sir,

This reference letter has been written upon request of Alex Stewart, editorial assistant of Journal of Pain&Relief. I'm a Orofacial Pain specialist in Turkey. Although I have been one of reviewer of Journal of Pain&Relief for three months, I know that the editorial board members and journal staff have worked very hard to establish its high professional standing. It is for this reason that I offer high recommendations for Journal of Pain&Relief to be indexed in PubMed.

If you have any question concerning this issue, you can contact me using the information above.

Yours faithfully,

NeslihanT inastepe, DDS,PhD
