RE: To Support Journal of Blood Disorders & Transfusion Pub Med Index Application

Dear Sir/Madam:

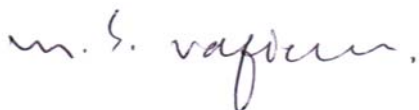

Journal of Blood Disorders & Transfusion was established in the fall of 2010 with an aim to publish the most exciting researches with respect to the subjects of Blood Disorders & Transfusion. Secondly, to provide a rapid turn-around time possible for reviewing and publishing and to disseminate the articles freely for research, teaching and reference purposes. And this journal has lived its commitment and has established itself a well reputed journal. It has come to the point that this journal is several times first choice for the researchers to publish their valued research.

The journal has very esteemed editorial board and every article submitted goes through rigorous peer review process and fact checking before it is accepted for publication and for this meticulous attention to the quality peer reviewing the journal editorial board deserves a big praise. Also journal staff has worked hard to establish its very high professional standing.

In my opinion the Journal of Blood Disorders and Transfusion has come a long way in short period of time and is ready to be recognized by PubMed and indexed in PubMed. As an editorial board member I strongly support and highly recommend this journal to be indexed in PubMed.

If you have any further questions please feel free to contact me at Muhammad.Rafique@uth.tmc.edu or call me at (713)500-6200.

Sincerely,

Muhammad B. Rafique
