Bethesda, MD 20894

Dear NLM PubMed Central:

I hereby express my great interest in continued service in Journal of Cell Science & Therapy as Editor. I further give my consent to disclose by the Journal my affiliation and contact information.

I do not have any conflict of interest, which would interfere with this important service for science, medicine and technology communities.

I strongly recommend *Journal of Cell Science & Therapy* to be indexed in PubMed Central. This unique Open Access journal has become a very good source of information related to cell sciences and related therapies with many subscribers all throughout the world.

Having served as an editor for the founding editorial board, I have witnessed that the Editor-in-Chief and the editorial board members and journal staff have worked very hard for the journal to establish its high professional standing and thereby recommending this journal to be indexed in PubMed Central. Thank you very much in advance for your favorable review.

Respectfully,

A handwritten signature in blue ink, appearing to read "Shengwen Calvin Li", with a long horizontal flourish extending to the right.
