Dear Sir/Madam

***Subject: Recommendation for indexing Journal of Gynecology and Obstetrics in PubMed***

The journal of Gynecology and Obstetrics by OMOCS Publishing Group is a Open Access peer-reviewed journal aiming at making healthcare and scientific information Open Access. The Journal publishes the most exciting research with respect to Gynecology and Obstetrics providing a rapid turnover time regarding reviewing and publishing. The article are then disseminated freely for research, teaching and reference purposes.

My association with the Journal as an Editorial Board member has been and enriching and fulfilling experience. The Editorial Board members and the journal staff have worked very hard to enable the Journal in establishing a high professional standing.

The Journal of Gynecology and Obstetrics truly deserves my recommendation for indexing in PubMed. I request your strong consideration for the same.

Thank you

Yours sincerely
