Letter of Consent

I hereby express my great interest in continued service to the Journal of Psychology & Psychotherapy as an Editor. In my role as Special Issue editor, I invited and received manuscripts from top-notch experts in the field of experimental psychology. I also recruited expert reviewers to assess manuscripts based on the quality and innovation of the research and writing. I am very excited about the final outcome of this issue and very proud that I was able to be directly involved in its development. I further give my consent to the Journal to disclose my affiliation and contact information. I do not have any conflict of interest, which would interfere with this important service for science, medicine, and technology communities.

I strongly recommend this journal to be indexed in PubMed Central. The journal staff and editorial board members have worked very hard for the journal to establish its high professional standing. As the most commonly used website for researching publications in the medical field, PubMed Central plays an important role in the authors' decisions regarding journal submission. Therefore, JPPT would attract even more excellent manuscripts with the added advantage of being indexed in PubMed Central.

Sincerely,

Tanja Jovanovic, PhD
