I hereby express my great interest in continued service in Journal of Physical Chemistry & Biophysics as an Editor (or) Author (or) Reviewer. I further give my consent to disclose by the Journal my affiliation and contact information. I do not have any conflict of interest, which would interfere with this important service for science, medicine, and technology communities.

I strongly recommend this journal to be indexed in PubMed Central. Journal staff and editorial board members have worked very hard for the journal to establish its high professional standing. It publishes both high quality experimental papers and computational papers. Because it is an open-access journal, it is helping to create a global community of scientists, where all scientists have access to the results of cutting edge research. Scientists in many countries are employed at institutions that cannot afford to maintain the high cost of annual subscriptions to mainstream journals. And yet, the contributions of these scientists are important, because novel ideas often come from unexpected sources.
