

Letter of Recommendation

To,
National Library of Medicine
Building 38A - Room 4N-419
8600 Rockville Pike
Bethesda, MD U.S.A. 20894

I hereby express my great interest in continued service in Hereditary Genetics: Current Research as an Editor. I further give my consent to disclose by the Journal my affiliation and contact information. I do not have any conflict of interest, which would interfere with this important service for science, medicine, and technology communities.

I strongly and enthusiastically recommend this journal to be indexed in PubMed Central. Hereditary Genetics: Current Research is constantly improving, with many new interesting and quality publications. Due to the tireless efforts of the Journal staff and editorial board members, they have helped to establish its high professional standing and ensure its continued success.
