

Recommendation Letter

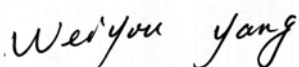

2013-07-26

Journal of Material Science & Engineering (JME) is an Open Access journal, which publishes reviews, full-length papers, case reports, and short communications recording original research results on, or techniques for studying the relationship between structure, properties, and uses of materials. This broad-based journal was founded on two key tenets: To publish the most exciting researches with respect to the subjects of Material Science. Secondly, to provide a rapid turn-around time possible for reviewing and publishing, and to disseminate the articles freely for research, teaching and reference purposes.

The journal is using Editorial Tracking System for quality in peer review process, which guarantees the published work with high quality. Review processing is performed by the editorial board members of Journal of Material Science & Engineering (JME) or outside experts; at least two independent reviewers approval followed by editor approval is required for acceptance of any citable manuscript.

The journal is constantly improving and is running ahead with better and many quality publications. The editorial board members and journal staff have always worked very hard for the journal to establish its high professional standing, and there by recommending this journal to be indexed in ISI Web of Knowledge.

Many thanks for your consideration.
