July 20 2013

PUBMED,

Dear PUBMED Committee,

I'm writing to support the petition for indexing "Journal of Alcoholism & Drug Dependence" in PubMed. I am a Research Assistant Professor of Biomedical Engineering at the Departments of Psychiatry and Radiology. I have published 55 peer-reviewed journal papers with 2 book chapters, 2 patents. The total citations to my papers have been over 1200 times. My H-index is 20 and I have been consistently giving talks in prestigious research institutes and international conferences. I'm in the editorial boards for 4 journals, and have been served as *ad hoc* reviewers for more than 15 top level journals across several research fields. I am also a reviewer for several international foundations including NIH. Relative to this journal, my research work in the past 10 years is mostly related to drug addiction and dependence.

Journal of Alcoholism & Drug Dependence is a new journal which has been peer-reviewed by various leading experts in drug addiction research field, which should soon rise to a prestigious one. I strongly recommend this journal to be indexed in PubMed!

Yours sincerely

Ze Wang, Ph.D.
