Open Access Publication Fee

OMICS Publishing Group, a self supporting organization and does not receive funding from any institution/government. Hence, the operation of the Journal is solely financed by the handling fees received from authors and some academic / corporate sponsors. The handling fees are required to meet maintenance of the journal. Being an Open Access Journal, it does not receive payment for subscription as the articles are freely accessible over the internet. Authors of articles are required to pay a fair handling fee for processing their articles. However, there are no submission charges.
