Journal of Proteomics & Bioinformatics

Open Access

www.omicsonline.org

Journal of Proteomics & Bioinformatics publishes the highest quality scientific articles amalgamating broad range of fields including the fields related to proteomics & bioinformatics. The journal publishes articles related to proteomics and bioinformatics which include properties and interactions of proteins, protein structure function and protein structure predictions, analysis, homology modeling, drug designing, systems biology, genome annotation, analysis of gene expression, regulation with the aid of software, structural approach of bioinformatics such as molecular interaction, molecular docking and Computational evolutionary biology.

In Proteomics & Bioinformatics, expert researchers explore this ever-changing field, providing the reader with a mix of review and methodology chapters which address the fundamentals of analysis methods, algorithms, data standards and databases. Journal publishes original research articles in all areas of experiment and applied proteomics and bioinformatics. In past years Journal of Proteomics & Bioinformatics has been showing tremendous citations and articles focusing the most advanced research trends.

The Journal of Proteomics & Bioinformatics under the open access category is much more improved than the traditional publications. It allows the free, faster and unconstrained access to the scientific research and their results. Researcher, scholars and scientist are excited to publish their work in the open-access journals to magnify and pass around their knowledge. Journal of Proteomics & Bioinformatics encourages and also depends upon data interpretation, efforts and analysis of proteome data using the bioinformatics solutions (tools and inbuilt concepts) and conceptual advances in protein biology.

Journal of Proteomics & Bioinformatics - Open Access uses online manuscript submission, review and tracking systems for quality and quick review processing. Submit your manuscript at <http://www.editorialmanager.com/proteomics>

Editors & Editorial Board

Ning Li
HKUST
Hong Kong

David M Lubman
University of Michigan
USA

K Nakamura
Yamaguchi University
Japan

Sandra Orchard
Wellcome Trust
Genome Campus, UK

Fuchu He
The State Key
Laboratory of
Proteomics, China

Richard J Simpson
Royal Melbourne
Hospital, Australia

Ravi Sirdeshmukh
Centre for Cellular and
Molecular Biology, India

Denong Wang
Center for Cancer
Research, USA

Terence C W Poon
The Chinese University
Hong Kong

Laura Beretta
Cancer Research
Center, USA

Zhengping Yi
Arizona State University
USA

Ho Jeong Kwon
Yonsei University
Korea

Christian Stephan
Ruhr-Universität
Bochum, Germany

Phan Van Chi
Vietnam Academy of
Science & Technology
Vietnam

Young Mok Park
Korea Basic Research
Institute, Korea

M Hugo Genero
Buenos Aires University
Argentina

David Sheehan
University College Cork
Ireland

Roman Zubarev
Karolinska Institute
Sweden

S Rodriguez-Zas
University of Illinois
USA

David Fenyo
The Rockefeller
University, USA

Rob Krams
Imperial College of
London, UK

K Camphausen
National Institutes of
Health, USA

M Kirpichnikov
Moscow State
University, Russia

Krishan Kumar
Northeastern University
USA

Lifeng Peng
Victoria University of
Wellington
New Zealand

Xiang-Jia Min
Youngstown State
University, USA

W Weckwerth
University of Vienna
Austria

Dong Seok Choi
Oregon Health &
Science University, USA

Rong Luo
Middle Tennessee
State University, USA

Shui-Tein Chen
National Taiwan
University, Taiwan

Babu Purkayastha
Proteomics Research
Centre, USA

Punit Kaur
Morehouse School of
Medicine, USA

Hua Xu
Chicago Biomedical
Consortium, USA

Gerardo Nava
Washington University
