Like all other great Prophets (AS) of God, statements of Prophet Muhammad are divinely inspired. Prophet Muhammad never spoke a single lie in his lifetime. So traditions of the Prophet on healing are also true, which modern science confirms through scientific research. This is because God says in the Qur'an, "He not speak anything of his own desire" (Qur'an; An-Najm 53:3). So although the Prophet's arrival was not as a physician he was inspired by God to make nearly 1000 statements on healing for the benefit of humankind, because man needs to remain well free from sickness to fulfill his brief mission earth.

Prophetic medicine comprises the divinely inspired words of therapy of Prophet Muhammad. It was practiced during the early days of Islam 14 centuries ago and found very effective. Prophet Muhammad made specific statements on 37 ailments and 61 medicinal plants, herbs and shrubs while making prescriptions for the sick people. The vast number of Prophetic traditions on diseases and remedies & health and wellness became known as Medicine of the Prophet or Prophetic medicine. About Nigella sativa L., Abu Hurayrah (ra) narrates that the Prophet said:

"Hold on (use this seed regularly)! Because it is a remedy (cure) for every disease except death." (Bukhari, Muslim)

This statement made 14 centuries ago generated tremendous interest among the world's scientific community, which finally led them to carry out extensive phytochemical and biological investigations on the black seed and its oil. However, it is amazing that the researchers after carrying out hundreds of researches finally concluded that black seed can effectively cure 129 different types of ailments including 17 types of cancer. This large number of diseases curable by black seed demonstrates the authenticity of the Prophet's statement.
