

OMICS INTERNATIONAL

OMICS International through its Open Access Initiative is committed to make genuine and reliable contributions to the scientific community. OMICS International hosts over **700** leading-edge peer reviewed Open Access Journals and organizes over **1000** International Conferences annually all over the world. OMICS International journals have over **10 million** readers and the fame and success of the same can be attributed to the strong editorial board which contains over **50000** eminent personalities that ensure a rapid, quality and quick review process. OMICS International signed an agreement with more than **1000** International Societies to make healthcare information Open Access.

OMICS Journals are welcoming Submissions

OMICS International welcomes submissions that are original and technically so as to serve both the developing world and developed countries in the best possible way.

OMICS Journals are poised in excellence by publishing high quality research. OMICS International follows an Editorial Manager® System peer review process and boasts of a strong and active editorial board.

Editors and reviewers are experts in their field and provide anonymous, unbiased and detailed reviews of all submissions. The journal gives the options of multiple language translations for all the articles and all archived articles are available in HTML, XML, PDF and audio formats. Also, all the published articles are archived in repositories and indexing services like DOAJ, CAS, Google Scholar, Scientific Commons, Index Copernicus, EBSCO, HINARI and GALE.

Editor

Pediatrics & Therapeutics

Akhil Maheshwari

Associate Professor

Department of of Pediatrics and Pharmacology

University of Illinois

USA

Tel: 312-996-4185

Fax: 312-355-55

Biography:

Dr. Maheshwari earned his medical degree from the Institute of Medical Sciences, Varanasi, India, completed his residency in Pediatrics at University of Florida, Gainesville, FL, and received fellowship training in Neonatology at the University of South Florida, Tampa, FL. several trainees from his group have been recognized this year with research awards at regional and national Pediatric meetings.

He has served on the editorial boards of three professional journals and is an active or ad hoc reviewer for several other journals and grant review panels.

Research Interest:

His clinical interests are in neonatal intensive care, acute inflammation, and gut development and he is deeply committed to the training of physicians, physician-scientists, and basic scientists in evidence-based medicine and scientific investigation. His research is focused on bacterial translocation across the developing intestine and the mechanisms by which microbial products induce mucosal/systemic inflammatory responses. Specific areas of interest include leukocyte trafficking, tight junctions, and macrophage function. His laboratory is currently investigating inflammatory pathways active during necrotizing enterocolitis, cytomegalovirus-mediated inflammation, and extracorporeal membrane oxygenation-related gut mucosal injury.
