OMICS International through its Open Access Initiative is committed to make genuine and reliable contributions to the scientific community. OMICS International hosts over 700 leading-edge peer reviewed Open Access Journals and organizes over 1000 International Conferences annually all over the world. OMICS International journals have over 10 million readers and the fame and success of the same can be attributed to the strong editorial board which contains over 50000 eminent personalities that ensure a rapid, quality and quick review process. OMICS International signed an agreement with more than 1000 International Societies to make healthcare information Open Access.
OMICS International welcomes submissions that are original and technically so as to serve both the developing world and developed countries in the best possible way. OMICS Journals are poised in excellence by publishing high quality research. OMICS International follows an Editorial Manager® System peer review process and boasts of a strong and active editorial board.

Editors and reviewers are experts in their field and provide anonymous, unbiased and detailed reviews of all submissions. The journal gives the options of multiple language translations for all the articles and all archived articles are available in HTML, XML, PDF and audio formats. Also, all the published articles are archived in repositories and indexing services like DOAJ, CAS, Google Scholar, Scientific Commons, Index Copernicus, EBSCO, HINARI and GALE.

Charles E Wade
Professor
Department of Surgery
The University of Texas Medical School
USA
Dr. Wade has been in the field of traumatic injury research for over 25 years. After completing his Ph.D. and two fellowships he joined the faculty at the Letterman Army Medical Center in the department of clinical investigation. From 1990 to 2004 Dr. Wade was Project Scientist for NASA in the Life Sciences division. In 2005 he joined the US Army Institute of Surgical Research as Senior Scientist. Dr. Wade is currently Professor of Surgery and Deputy Director for the Center for Translational Injury Research at the University of Texas Health Science Center in Houston. He has published over 200 articles relating to the care of the critically injured patient. He serves as a member of various professional organizations, as well as a reviewer for many reputed trauma related journals. Dr. Wade has also served as a mentor to train residents and staff to develop their skills in translational research.
Research Interest

Acute care of patients with traumatic injuries, metabolism following injury and wound healing.
For Upcoming Conferences

OMICS International Open Access Membership enables academic and research institutions, funders and corporations to actively encourage open access in scholarly communication and the dissemination of research published by their authors. For more details and benefits, click on the link below:
