OMICS Group International through its Open Access Initiative is committed to make genuine and reliable contributions to the scientific community. OMICS Group hosts over 400 leading-edge peer reviewed Open Access Journals and organizes over 300 International Conferences annually all over the world. OMICS Publishing Group journals have over 3 million readers and the fame and success of the same can be attributed to the strong editorial board which contains over 30000 eminent personalities that ensure a rapid, quality and quick review process. OMICS Group signed an agreement with more than 1000 International Societies to make healthcare information Open Access.
OMICS Group welcomes submissions that are original and technically so as to serve both the developing world and developed countries in the best possible way. OMICS Journals are poised in excellence by publishing high quality research. OMICS Group follows an Editorial Manager® System peer review process and boasts of a strong and active editorial board.

Editors and reviewers are experts in their field and provide anonymous, unbiased and detailed reviews of all submissions. The journal gives the options of multiple language translations for all the articles and all archived articles are available in HTML, XML, PDF and audio formats. Also, all the published articles are archived in repositories and indexing services like DOAJ, CAS, Google Scholar, Scientific Commons, Index Copernicus, EBSCO, HINARI and GALE.

David Randall

Co-Editor-in-Chief

Journal of Health & Medical Informatics
“...the application of computers, communications, and information technology and systems to all fields of medicine” (Morris Collen)

“...transformation of data to information, information to knowledge”

(M. ‘Scott’ Blois)

Health & Medical Informatics
The Journal of Health & Medical Informatics (JHMI) is a scholarly journal that integrates the information and communication related to healthcare, medicine and their applications in medical information systems.

Journal of Health and Medical Informatics
Informatics Applications

- Data capture devices
- New tools that deliver clinical interventions
- Substantive content specific to selected clinical trials
- Treat informatics like statistics: expect it in every project!
Health Informatics Support for Translational Medicine

- Basic Research
- Clinical Research
- Health Services

- Bioinformatics and image management
- Knowledge resources (literature, gene, images)
- Intelligent access to distributed resources
- Researcher’s workstation & network
