

OMICS INTERNATIONAL

OMICS International through its Open Access Initiative is committed to make genuine and reliable contributions to the scientific community. OMICS International hosts over 700 leading-edge peer reviewed Open Access Journals and organizes over 1000 International Conferences annually all over the world. OMICS International journals have over 10 million readers and the fame and success of the same can be attributed to the strong editorial board which contains over 50000 eminent personalities that ensure a rapid, quality and quick review process. OMICS International signed an agreement with more than 1000 International Societies to make healthcare information Open Access.

OMICS Journals are welcoming Submissions

OMICS International welcomes submissions that are original and technically so as to serve both the developing world and developed countries in the best possible way.

OMICS Journals are poised in excellence by publishing high quality research. OMICS International follows an Editorial Manager® System peer review process and boasts of a strong and active editorial board.

Editors and reviewers are experts in their field and provide anonymous, unbiased and detailed reviews of all submissions. The journal gives the options of multiple language translations for all the articles and all archived articles are available in HTML, XML, PDF and audio formats. Also, all the published articles are archived in repositories and indexing services like DOAJ, CAS, Google Scholar, Scientific Commons, Index Copernicus, EBSCO, HINARI and GALE.

Journal of Fundamentals of Renewable Energy and Applications

Open Access

Editor Journal of Fundamentals of Renewable Energy and Applications

Harry D. Kambezidis

Research Director
Atmospheric Physics Scientist
National Observatory of Athens (NOA)
Institute for Environmental research and Sustainable Development
Athens, Greece

Journal of Fundamentals of Renewable Energy and Applications

Open Access

Biography:

BSc in Physics from the Department of Physics, Aristotle University of Thessaloniki, Greece (1974); Diploma in Computer Programming Commercial College, Greece and approved by State (1975); MSc and M. Phill in Microwave Communications Engineering from the Department of Electronic and Electrical Engineering, University of Leeds, UK (1976, 1979); PhD in the Wind field behind small and big wind turnies from the Dept. of Physics, National and Kapodistrian University of Athens, Greece.

Journal of Fundamentals of Renewable Energy and Applications

Open Access

Research Interest:

Research interests lie in the general field of atmospheric physics. More specifically, these are in the topics of (i) simulation of solar radiation received on the earth's surface, (ii) measurements of atmospheric gaseous pollutants and particulate matter, (iii) derivation of simple formulae for air pollution dependence on meteorological and other pollution parameters, (iv) air quality, (v) optical and physical properties of atmospheric aerosols, (vi) interaction of solar radiation with atmospheric aerosols, (vii) daylight, and (viii) wild fires.

Journal of Fundamentals of Renewable Energy and Applications Related Journals

- International Journal of Waste Resources
- Hydrology: Current Research
- Innovative Energy & Research
- Advances in Recycling & Waste Management
- Journal of Nuclear Energy Science & Power Generation Technology

Journal of Fundamentals of Renewable Energy and Applications Related Conferences

- > 2nd International Congress and Expo on Biofuels & Bioenergy
- Global Energy Summit & Expo

OMICS International Open Access Membership enables academic and research institutions, funders and corporations to actively encourage open access in scholarly communication and the dissemination of research published by their authors.
