

OMICS GROUP

OMICS Group International through its Open Access Initiative is committed to make genuine and reliable contributions to the scientific community. OMICS Group hosts over **400** leading-edge peer reviewed Open Access Journals and organizes over **300** International Conferences annually all over the world. OMICS Publishing Group journals have over **3 million** readers and the fame and success of the same can be attributed to the strong editorial board which contains over **30000** eminent personalities that ensure a rapid, quality and quick review process. OMICS Group signed an agreement with more than **1000** International Societies to make healthcare information Open Access.

OMICS Journals are welcoming Submissions

OMICS Group welcomes submissions that are original and technically so as to serve both the developing world and developed countries in the best possible way.

OMICS Journals are poised in excellence by publishing high quality research. OMICS Group follows an Editorial Manager® System peer review process and boasts of a strong and active editorial board.

Editors and reviewers are experts in their field and provide anonymous, unbiased and detailed reviews of all submissions. The journal gives the options of multiple language translations for all the articles and all archived articles are available in HTML, XML, PDF and audio formats. Also, all the published articles are archived in repositories and indexing services like DOAJ, CAS, Google Scholar, Scientific Commons, Index Copernicus, EBSCO, HINARI and GALE.

He Wang

Department of Pathology and Clinical Medicine
Temple University, USA

Journal of Clinical & Experimental Pathology

Biography

- Dr. He Wang is a Lead cytopathologist in the Department of Pathology and Lab Med at Temple University, Philadelphia, PA. received Phd from McGill University, Canada in the field of Experimental Pathology. He is also a Member of United States & Canadian Academy of Pathology, American Society for Clinical Pathology, American Society of Cytology. He Wang received American Society of Hematology Trainee Research Award 2007-2008.

Research Interest

- Cytopathology
- Anatomic Pathology

Cytopathology

- Branch of pathology that studies and diagnoses diseases on the cellular level.
- Common application of cytopathology is the Pap smear used to detect precancerous cervical lesions and prevent cervical cancer.

Cytopathology

- Used to investigate thyroid lesions, diseases involving sterile body cavities (peritoneal, pleural, and cerebrospinal), and a wide range of other body sites, aid in the diagnosis of cancer.

Anatomic Pathology

- Branch of Pathology that deals with the diagnosis of disease based on the macroscopic, microscopic, biochemical, immunologic and molecular examination of organs and tissues.

Publications

- Suo S, Lin N, Wang H, Zhang L, Wang R, et al. (2014) Intravoxel incoherent motion diffusion-weighted MR imaging of breast cancer at 3.0 tesla: Comparison of different curve-fitting methods. *J Magn Reson Imaging* .
- Huang CH, Wang H, Pan JX, Zhou D, Chen W₄, et al. (2014) Benzalkonium Chloride induces Subconjunctival Fibrosis through the COX-2- modulated activation of a TGF- \hat{I}^2_1 /Smad₃ Signaling Pathway. *Invest Ophthalmol Vis Sci* .
- Wang DN, Ding WJ, Pan YZ, Tang KL, Wang T, et al. (2014) The *Helicobacter pylori* L-form: Formation and Isolation in the Human bile Cultures in vitro and in the Gallbladders of Patients with Biliary Diseases. *Helicobacter* .
- Pusztaszeri M, Wang H, Cibas ES, Powers CN, Bongiovanni M, et al. (2014) Fine-needle aspiration biopsy of secondary neoplasms of the thyroid gland: A multi-institutional study of 62 cases. *Cancer Cytopathol* .
- Liu QS, Luo XY, Jiang H, Xing Y, Yang MH, et al. (2014) *Salvia miltiorrhiza* injection restores apoptosis of fibroblast-like synoviocytes cultured with serum from patients with rheumatoid arthritis. *Mol Med Rep*.

OMICS Group **Open Access Membership**

OMICS publishing Group Open Access Membership enables academic and research institutions, funders and corporations to actively encourage open access in scholarly communication and the dissemination of research published by their authors.
