

OMICS INTERNATIONAL

OMICS International through its Open Access Initiative is committed to make genuine and reliable contributions to the scientific community. OMICS International hosts over **700** leading-edge peer reviewed Open Access Journals and organizes over **1000** International Conferences annually all over the world. OMICS International journals have over **10 million** readers and the fame and success of the same can be attributed to the strong editorial board which contains over **50000** eminent personalities that ensure a rapid, quality and quick review process. OMICS International signed an agreement with more than **1000** International Societies to make healthcare information Open Access.

OMICS Journals are welcoming Submissions

OMICS International welcomes submissions that are original and technically so as to serve both the developing world and developed countries in the best possible way.

OMICS Journals are poised in excellence by publishing high quality research. OMICS International follows an Editorial Manager® System peer review process and boasts of a strong and active editorial board.

Editors and reviewers are experts in their field and provide anonymous, unbiased and detailed reviews of all submissions. The journal gives the options of multiple language translations for all the articles and all archived articles are available in HTML, XML, PDF and audio formats. Also, all the published articles are archived in repositories and indexing services like DOAJ, CAS, Google Scholar, Scientific Commons, Index Copernicus, EBSCO, HINARI and GALE.

Pediatrics & Therapeutics

Open Access

ISSN: 2161-0665

Editor *Pediatrics & Therapeutics*

Juan Sanchez-Esteban

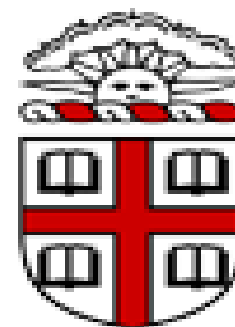

Associate Professor

Department of Pediatrics

The Warren Alpert Medical School

Brown University

USA

Biography:

Juan Sanchez Esteban Associate Professor of Pediatrics at the Warren Alpert Medical School of Brown University and Attending Neonatologist at Women Infants Hospital of Rhode Island. My research interests are: 1 Mechanotransduction during fetal lung development. 2 Lung injury secondary to mechanical ventilation in the premature newborn and the potential protective role of the antiinflammatory cytokine IL10. I have received several awards and honors including the Richard B. Salomon Faculty Award of Brown University, the Parker B. Francis Fellowship and the presidency of the New England Perinatal Society. I am ad hoc reviewer for more than 15 journals and grant reviewer for the Italian Ministry of Health. My research is supported by the National Institute of Health.

Research Interest:

Mechanical forces in fetal lung development, cell signaling, epidermal growth factor receptor, bronchopulmonary dysplasia, IL-10.

Publication:

1. Sanchez-Esteban J (2012) Learning how Mechanical Forces Regulate Lung Development: Opportunities for Translational Research. *Pediat Therapeut* 2: e115.
