

# OMICS INTERNATIONAL

OMICS International through its Open Access Initiative is committed to make genuine and reliable contributions to the scientific community. OMICS International hosts over **700** leading-edge peer reviewed Open Access Journals and organizes over **1000** International Conferences annually all over the world. OMICS International journals have over **10 million** readers and the fame and success of the same can be attributed to the strong editorial board which contains over **50000** eminent personalities that ensure a rapid, quality and quick review process. OMICS International signed an agreement with more than **1000** International Societies to make healthcare information Open Access.

# OMICS Journals are welcoming Submissions

OMICS International welcomes submissions that are original and technically so as to serve both the developing world and developed countries in the best possible way.

OMICS Journals are poised in excellence by publishing high quality research. OMICS International follows an Editorial Manager® System peer review process and boasts of a strong and active editorial board.

Editors and reviewers are experts in their field and provide anonymous, unbiased and detailed reviews of all submissions. The journal gives the options of multiple language translations for all the articles and all archived articles are available in HTML, XML, PDF and audio formats. Also, all the published articles are archived in repositories and indexing services like DOAJ, CAS, Google Scholar, Scientific Commons, Index Copernicus, EBSCO, HINARI and GALE.

**Julio Licinio**

Research Professor

University of Southern California

USA

## Biography

Dr. Julio Licinio, M.D., F.A.P.A., is Professor and Director, John Curtin School of Medicine, The Australian National University, and head of the Department of Translational Medicine. He is also a Research Professor at the University of Southern California, in Los Angeles. Professor Licinio is originally from Brazil and lived for over 25 years in the United States, where he had clinical and research training in endocrinology and psychiatry at University of Chicago and Cornell. He then held academic positions at Yale, NIH, and UCLA, where he was Professor and Vice-Chair of Psychiatry and Director of the Center for Pharmacogenomics. Prior of moving to Australia, he was Miller Professor, Chairman of Psychiatry and Associate Dean at University of Miami. His work on the fundamental endocrine and pharmacogenomic mechanisms at the interface of obesity and depression has been extensively funded by NIH, and it is highly cited in the scientific literature. Dr. Licinio is the Founding Editor of three Nature Publishing Group journals, The Pharmacogenomics Journal, Translational Psychiatry and Molecular Psychiatry, which has an Impact Factor of 15, the highest in its field worldwide.
