OMICS International through its Open Access Initiative is committed to make genuine and reliable contributions to the scientific community. OMICS International hosts over 700 leading-edge peer reviewed Open Access Journals and organizes over 1000 International Conferences annually all over the world. OMICS International journals have over 10 million readers and the fame and success of the same can be attributed to the strong editorial board which contains over 50000 eminent personalities that ensure a rapid, quality and quick review process. OMICS International signed an agreement with more than 1000 International Societies to make healthcare information Open Access.
OMICS International welcomes submissions that are original and technically so as to serve both the developing world and developed countries in the best possible way.

OMICS Journals are poised in excellence by publishing high quality research. OMICS International follows an Editorial Manager® System peer review process and boasts of a strong and active editorial board.

Editors and reviewers are experts in their field and provide anonymous, unbiased and detailed reviews of all submissions. The journal gives the options of multiple language translations for all the articles and all archived articles are available in HTML, XML, PDF and audio formats. Also, all the published articles are archived in repositories and indexing services like DOAJ, CAS, Google Scholar, Scientific Commons, Index Copernicus, EBSCO, HINARI and GALE.

Tsung-Chieh Yao
Associate Professor
Division of Allergy, Asthma, and Rheumatology
Department of Pediatrics
Chang Gung University
Taiwan
Biography:

Tsung-Chieh Yao, MD, PhD is an Associate Professor of Pediatrics at the Chang Gung Memorial Hospital and Chang Gung University, Taiwan. Dr. Yao completed his residency and fellowship training at Chang Gung Memorial Hospital and earned his PhD. in clinical medical science from Chang Gung University. He provides clinical care in pediatric allergy, immunology, and rheumatology. He received more than 10 awards recognizing his work including the Award for Outstanding Contributions to Pediatric Medicine, the Outstanding Social Youth Award of the Year 2004, the Taiwan Society of Pediatric Allergy, Asthma and Immunology Top Research Award of the Year 2006 & 2009, the Top Schering-Plough Research Award, the Top Nestle Research Award, and the Annual Teaching Excellence Award for Attending Physicians. He has published many peer-reviewed articles and has been an ad hoc reviewer of several scientific journals.
Research Interest:

1. Genetic, epidemiologic, and clinical studies of asthma.

2. Rheumatologic diseases.
Pediatric Immunology:

Pediatric Immunology is a branch of pediatrics which deals with immunological or allergic disorders of children.
Pediatric Immunology plays major role in understanding the cellular and molecular mechanisms underlying the immune system and it has seriously involved in the development of new diagnostic tests and treatment.
There are many types of organs in our body which plays vital role in immunological functions.
Some of the organs include,

- Thymus
- Bone marrow
- Spleen
- Tonsils
Lymph vessels
lymph nodes
Adenoids
Skin and
Liver
Some times malfunctions of the immune system will lead to immunological disorders.
Some of these disorders include,

- Autoimmune diseases
- Hypersensitivities
- Immune deficiency and
- Transplant rejection.
Autoimmunity is a type of immunity in which the immune system attacks its own host's body as it is unable to recognize its own.
Some of the autoimmune disorders in children include,

- Rheumatoid arthritis
- Systemic lupus erythematosus
- Myasthenia gravis and
- Hashimoto's disease
Immunology has become an excellent tool in the detection and diagnosis of many infectious diseases, as there are specific bonds between antibody and antigen.
The branch of immunology playing vital role in treating many diseases. The use of immune system components to treat a disease or disorder is known as immunotherapy.
International immunology day will be celebrated every year on April 29.
