OMICS International welcomes submissions that are original and technically so as to serve both the developing world and developed countries in the best possible way. OMICS Journals are poised in excellence by publishing high quality research. OMICS International follows an Editorial Manager® System peer review process and boasts of a strong and active editorial board.

Editors and reviewers are experts in their field and provide anonymous, unbiased and detailed reviews of all submissions. The journal gives the options of multiple language translations for all the articles and all archived articles are available in HTML, XML, PDF and audio formats. Also, all the published articles are archived in repositories and indexing services like DOAJ, CAS, Google Scholar, Scientific Commons, Index Copernicus, EBSCO, HINARI and GALE.

Weiqin Chen

Assistant Professor

Journal of Metabolic Syndrome
Weiqin Chen has done PHD, from Michigan State University, MS, from China Agricultural University & BS, from Nanjing Agricultural University. Now currently working as Assistant professor of Physiology at Georgia Regents University, Augusta GA , USA.
Research Interests

- Biochemistry
- Molecular biology
- Cell biology of lipid and energy metabolism
- Adipogenesis
- Obesity
- Lipodystrophy
- Diabetes
Recent Publications

Obesity

**Obesity** is a medical condition in which excess body fat has accumulated to the extent that it may have a negative effect on health, leading to reduced life expectancy and/or increased health problems.

Obesity is a complex disorder involving an excessive amount of body fat. Obesity isn't just a cosmetic concern. It increases your risk of diseases and health problems such as heart disease, diabetes and high blood pressure.

Being extremely obese means you are especially likely to have health problems related to your weight.
Factors contributing to obesity

- Parents’ Education
- Socio-economic factors
- Genetics
- Psychosocial
- Energy Intake
- Biological factors
- Energy Expenditure

- Food frequency
- Diet composition
- Hormone response to meal
- Metabolic rate
- Physical activity questionnaire
- Exercise testing
- Depression, quality or life questionnaires
- Power of food questionnaire
