

2020 Announcement of 26th Dental Research & Future Dentistry

Jonathan Sanderson

General Dentist, Ilderton Dove Dental, London, Canada Area, E-mail: jsande24@uwo.ca

Submission guidelines and registration prices information for Speakers and Delegates are posted on the Dental Public health website at [Future Dentistry 2020](#).

Online entries will be accepted from October 01, 2019- April 27, 2020.

Future Dentistry 2020 will be held in London, UK from April 27-28, 2020.

[Future Dentistry 2020](#) aims to discuss the wonders happening in the ever growing field of Dentistry. This conference is an acting stage for business professionals, Dentists **Directors**, academicians, technicians and mainly students to showcase their innovations and new ideas. Future Dentistry 2020 will have more than 100 International renowned speakers to share their latest research results to participants; the planned program will cover a variety of subjects in the field of **Dentistry**. The conference will also provide an opportunity for interaction and interchange ideas through posters, open discussion and program project. We strongly believe that the exchange of knowledge and experience will result in a strong global collaboration between you and us.

*Are you willing to showcase research results and recent objectives achieved? During Future Dentistry 2020, all participants will be able to provide at the registration desk a poster outlining your main results. Why?

Because you will have the chance to present them at the Knowledge exchange session (April 27 forenoon) and meet the authors of the speech you find most interesting during the final Networking Session!

Future Dentistry 2020 aims to provide our Participants by the following means of information delivery:

- Enhance the depth of learning by explaining new methods and techniques and clarify the latest developments compared to the old methods, which the audience will be able to perform and use the information in their practice.
- Improve the degree of skills of dental and parodontal professionals including students by participation in lectures, **workshops**, hands-on courses and seminars.
- Improve the awareness regarding latest advancements in dental materials, instruments and techniques by demonstration from specialized professionals in the dental field.
- Provide information, methodology and strategy related to the management and quality improvement of the dental clinic.

Benefits:

- Meet Experts & Influencers Face to Face
- Networking Opportunities
- Learning in a New Space
- New Tips & Tactics

Conference Subject Advantages: This conference aim to promote continuous medical education and encourage a nourishing exchange of facts and ideas in how to deal with the Dental and Oral care. Expelling plaque and analytics by scaling and cleaning teeth. Taking impressions and additionally dental radiographs of teeth. Applying prophylactic/antibacterial materials, gap sealants and topical fluorides to help forestall tooth root.

Major challenges:

- Visa Issues
- Climate Conditions
- Financial Constrains
