

2020 Conference Announcement on Annual Alzheimers Congress

Holger Fröhlich

Professor, Department of Bioinformatics, University of Bonn, Germany, E-mail: holger.froehlich@ucb.com

ConferenceSeries takes great pleasure in inviting the scientific community across the globe to the Annual Congress on Alzheimer's and Dementia during September 16-17, 2020 at Edinburgh, Scotland. Edinburgh is Scotland's minimized, hilling capital. The city, Edinburgh was first named as "Castle Rock". The name "Edinburgh" is supposed to start from the early English of "Edwin's fort", alluding to the seventh century King Edwin of Northumbria. It has a medieval Old Town, rich Georgian New Town with gardens and neoclassical structures. Approaching over the city is Edinburgh Castle, home to Scotland's crown jewels and the Stone of Destiny, utilized in the crowning celebration of Scottish rulers. Arthur's Seat is an overwhelming top in Holy rood Park with clearing perspectives, and Colton Hill is topped with landmarks and remembrances.

Alzheimer's 2020 will focus on basic analysis of the economic aspects of Dementia & Alzheimer's, with a deep focus on the costs/ inputs and consequences/outcomes of Dementia interventions. It is used to complement traditional clinical development information such as efficiency, safety, quality etc., to guide decision makers regarding patient access to definite drugs and services. It also covers the multidisciplinary field of Alzheimer's, dementia disorders, Alzheimer's & dementia, paediatric Neuron Oncology, Physiotherapy for dementia, migraine issue, malignant brain cancers, and advance care planning.

Alzheimer's is one of the most common causes of dementia among older adults. Dementia is the loss of cognitive cogitation, working, memorized, and analysis and observable abilities to such an increasing the interferes with a person daily life and moments. Alzheimer disease is currently ranked as the sixth ranking cause of death in the United States. It depending on the types of brain changes that may be taking place by the dementia. Other dementias include Lowy body dementia, vascular dementia, and front temporal disorders. It is common for people to have mixed dementia a combination of two or multiple disorders.

Alzheimer disease is a persisting neurodegenerative disease that usually starts slowly and get worse over time which is caused by 60–70% of cases of dementia.

The participants can exchange and share their research results covering the scientific aspect of Dementia Risk Factors, Diagnosis and Treatment, Childhood Trauma and Dementia Parkinson's Diseases, Molecular Genetics and Biology of Dementia, Medical Biotechnology and Alzheimer's Disease, Brain Health, Stages of Alzheimer's disease, Pathological Hallmarks of Alzheimer's Disease, Animal Models and Translational Medicine, Biomarkers In Alzheimer's, Coffee and Alzheimer's Disease, Care Practice and Awareness, Clinical Trials and Case Report, Recent Advancement in Treatments of Dementia, Dementia Nursing, Anaemia In Dementia in Alzheimer's and Dementia 2020

Conference will encourage Young Researcher's Forum, scientists and the researchers in their early stage of career graph to widely discuss their outcome to enrich and develop the idea. The '[Best Poster Award](#)' is meant to encourage students in taking active part in the International Science platform to sharpen their skills and knowledgebase.

The Sponsor in the [Alzheimer's and Dementia 2020](#) can reach and get exposure to new clients, customer, business, brand awareness and media exposure. The sponsorship has different levels Premium Sponsorship Packages: Elite Sponsor, Silver Sponsor, Gold Sponsor, Exhibition, Additional Sponsorship Packages and Advertisements.
