

4th International conference on Diabetic complications

Mohamed Zaky

Assistant Professor, Forestry and Wood Technology Department, Faculty of Agriculture, Alexandria University, Egypt, E-mail: zaky_tree@yahoo.com

The “International Conference on 2nd Annual Congress on Diabetes and its Complications” hosted by conference series with the theme, New Insights and Clinical Advancements in Diabetic Complication was successfully executed during March 25-26, 2019 in Hong Kong. The conference offered a unique opportunity to investigators across the globe in order to meet, explore, network and perceive new scientific innovations. The conference received a commendable applaud and active participation was received from the Editorial Board Members of OMICS Group Journals as well as from the global scientists, Professors, Academicians, Researcher Scholars and students from diverse fields of Diabetes and Endocrinology. The conference was initiated with the Honorable presence of the Keynote forum.

The list includes:

- “Suicide squads revisited: Re-define gut feeling as a signal of affective endocrine tract” by Hyunchul kim, E&M psychiatry clinic, south korea.
- “Role of heme oxygenase in cardio-renal organ damage in diabetes” by Joseph F Ndisang, University of Saskatchewan College of Medicine, Canada.

Conference Series LLC Ltd is glad to announce 4th International Conference on Diabetes and its Complications. Which is scheduled to be held during February 17-18, 2020 Osaka, Japan and the event is enlightened with the theme “Exploring new insights and promoting awareness on diabetes health care”
