Biostatistics Meet 2020 shall recognize those who contribute to and support the purposes of the healthcare professionals in the successful commencement of the event in an exceptionally worthy manner. This excellence awards is designed with the intention of valuing our healthcare professionals, general practitioners, data base engineers, scientists/researchers who are making an outstanding contribution in the field of biostatistics.

We take the privilege of hosting the **International Conference on Biostatistics and Bioinformatics** which is going to be held during **September 25-26, 2020** in **Dubai, UAE**.

Biostatistics Meet 2020 Awards serve several purposes:

- (1) They are an expression of recognition for outstanding contributions in the field of [biostatistics and bioinformatics](#).
- (2) They are an incentive to youth to surpass excellence.

Award Categories:

Expert Level

The award is to the experts who have made outstanding contributions to advancing in biostatistics and bioinformatics. It is the most prestigious award of the conference and is also known as Scientific Service Achievement award. The recognition of this award is for a person with outstanding contribution towards biostatistics research for a particular period. These contributions may be a new innovation, new knowledge, or ways to improve professional practice in the field of biostatistics and bioinformatics. The eligibility criteria for achieving this award is that one should have minimum of 20+ years of expertise in the biostatistics and bioinformatics field. The receiver of this award ought to have a dedicated fascination and should take initiative in [researching](#) the recent trends and developments in the field of biostatistics and bioinformatics.

Professional Level

The award for skilled professional or educational research activity acquired in biostatistics and bioinformatics research field in the public or private sector for consultants having research knowledge at 10+ years in the field. The experience of part-time work will be regarded as a pro-rata. The experience will be calculated from the date when you received your (first) degree which will give you the title to join doctorate (in the country from where you obtained the degree or any other foreign country), even if the doctorate was never started. You may apply for the award online.

Scholar Level

The Young Researchers Forum provides the possibility to meet and deliberate research topics and methodologies to promote and develop ideas, learn and gain knowledge from key investigators at the conference. The forum will offer an opportunity for collegial interaction with other young investigators and established senior investigators across the globe. Young

researchers' forum competition to encourage young researchers/students to present their research works. Therefore, all presenters are encouraged to give comprehensive and dynamic talks based upon their research work. All YRFs will present their research works during the conference and the best presenter will receive the scholar award from Honorable Chair. These oral presentations should be of 10 minutes period in related scientific track tailed by 5 minutes question hour.

Women Scientist

Biostatistics Meet 2020 offers a unique platform for women scientists for presenting newest research projects with a detailed analysis. We cordially invite women scholars and scientists from universities/industries having 10+ years of research experience to join the forum. It provides a unique platform for women scientists for presenting latest research projects with an in-depth analysis. This award highlights major contributions by women scientists to life sciences research. Women Scientist can nominate deserving of the award through online.

Outstanding Speaker

Outstanding Speaker awards are presented to recognize individuals who have made innovative approach to the recent advancements in the field of biostatistics and bioinformatics. The award ought to encourage people to try to appreciate their fullest potential that may successively be useful. Epic works are not only a testament to the individual's efforts, but they also have the potential to change the world as they can lead to formulation of better policies and or a new mind set.

Best Keynote Speaker

Keynote speeches usually support the speaker's perspective of future advancements and experiences. They can also include motivational and inspirational elements. However the most important factor for keynote message success is audience engagement, innovative ideas for the betterment of health conditions in society, someone who captures the essence of the meeting and can subsequently highlight it to target audience in a short amount of time, weaving the key message that the event want the audience to take away with them, into their speech in a fun and memorable way.

Best Poster Award

Students' poster competition is organized at the conference, to encourage students and recent graduates to present their original research. Poster presentations are a very important way of sharing significant research and deserve recognition. The poster gives a framework to visually summarize your work, to engage others in discussions, and an opening to entice others to learn more by reading the full paper. The student poster award will acknowledge work that best represents the purposes, goals, vision and adds new knowledge, contributes innovative research, and/or provides insightful contribution to the field by a bachelor's, master's or doctoral student.

Outstanding Masters/Ph.D./Post-Doc Thesis

The award is recognizing for Masters/Ph.D./Post Doctorate thesis work presentation who will exhibit their projects and thesis mainly focused on biostatistics and bioinformatics presented in a unique way to easily understand by general audience. You can nominate deserving of the award online.
