Biofuel 2021 scheduled at Singapore during May 17-18, 2021

Biofuels and Bioenergy area unit designed to switch gas, diesel oil and coal, that area unit known as “fossil fuels” as a result of they're made of animals and plants that died millions years ago. Biofuels area unit created largely from plants that have simply been harvested. There are three main types of biofuel. Ethanol, biodiesel, and bio jet fuel. Global Biofuel and Bioenergy generation has increased by 6.7% between 2015 and 2016, but global CO₂ emissions are also on the rise. Biofuel and Bioenergy 2020 focuses on bringing together renewable and non-renewable energy experts, policy makers, economists, academicians and students to discuss the current state of research and development in Biofuel and Bioenergy strategies. The global renewable Biofuel and Bioenergy market was valued at \$928.0 Billion in 2017, and is expected to reach \$1,512.3 Billion by 2025, registering a CAGR of 6.1% from 2018 to 2025.

By analysing the importance of Biofuels and Bioenergy, Meetings International is organizing 18th [International Conference on Biofuel & Bioenergy](#) (Biofuel 2021) during May 17-18, 2021 at Singapore City, Singapore based on the theme "*Next Generation Fuels & Chemicals*". Scientific sessions of Singapore Biofuel 2021 includes Photovoltaic Market Trends, Vision for Biofuels and Bioenergy, Global Renewable Bioenergy Trends, Future Sources of Biofuels and Bioenergy, Global Biofuels and Bioenergy Elites, Statistical Review of World Biofuels and Bioenergy, Threshold of a New Age of Biofuels and Bioenergy, Global Biofuels and Bioenergy Industry, Renewable Biofuels and Bioenergy in the Global Energy Transformation & Renewable Biofuel and Bioenergy Information on Market and Future. Singapore Biofuel Meeting embraces with Keynote Session, Oral Session, Poster Session, Young Researchers Session and Exhibitor Session.

[International Conference on Biofuel & Bioenergy; February 18-19, 2020; Dubai, UAE](#)
