

Conferences Series LLC Ltd International Webinar on 22nd International Conference on Advanced Energy Materials and Research to promote Novel Innovations in Energy Materials to encounter Global Challenges during the COVID-19

Terry Alford,

Arizona State University, USA, [E-mail: TA@asu.edu](mailto:TA@asu.edu)

[Advanced Energy Materials Webinar](#): It is our great pleasure to invite you to participate in the 22nd International Conference on [Advanced Energy Materials](#) and Research which is an [Online Webinar](#) which will take place during 22-23 June 2020. The dedicated webinar theme is: ***Novel Innovations in Energy Materials to encounter Global Challenges during the COVID-19***. The purpose of the webinar is to bring together world-wide Researchers, Scientists, Professors, Engineers, and CEO's of Energy Materials and Materials Science companies to share their research experience and indulge in interactive discussions on all aspects of Energy Materials, Solar Energy, Hydrogen Energy, Carbon Materials, Batteries and fuel cells. Join us for two intensive and interesting days of discussion on contemporary Energy Materials research. This meeting will enable exchange of ideas and knowledge between different disciplines for facilitating research and clinical interdisciplinary collaborations focusing on [Energy Materials](#). Let's join hands for the future of this world, for the Next-gen of mankind, for the prospective and collective efforts to change what is within our reach and means.

The Webinar Sessions Includes: [Advanced Energy Materials](#), Advanced Nano Materials, Hydrogen Energy and Fuel Cell technology, Solar Energy Materials, Polymer Energy Materials, Crystalline Porous Materials, Catalysis and Energy Materials, [Biomaterials](#) for Energy production, Advanced Graphene & 2D Materials, Batteries and Solid Electrolyte Materials, Optical, Electrical and Magnetic Materials, Energy Harvesting Materials, Emerging Technologies for Energy Applications.

Our Organizing Committee includes Renowned Scientists, Researchers and Experts in the fields such as **Terry Alford**, Arizona State University, USA, **Yuichi Setsuhara**, Osaka University, Japan, **Nikolai A. Sobolev**, University of Aveiro, Portugal. By seeking suggestions from our committee members Advanced Energy Materials 2020 webinar is been designed with 13 sessions which comprises of all topics in the field of Advanced Energy Materials. All the submission towards [Advanced Energy Materials webinar](#) are rigorously peer reviewed to ensure to accept high quality submissions by the committee members who are well experienced in their field and from various countries around the globe

If you are looking for a global exposure for your novel research ideas and services, then this [webinar](#) would be the right place

for you. As we are one of the world's leading specialist in organizing scientific conferences, workshops, symposia and exhibitions Internationally in different fields like Medical, Pharma, Engineering, Science, Technology and Business attracting more than 25 Million+ Visitors, 25000+ unique visitors per conference and 70000+ page views for every individual conference would help in quantifying our presenters research and biography visibility to the online communities and get recognized worldwide. As we're seeing the impact of COVID-19 (Coronavirus) across Energy Materials globally. In this webinar various eminent personalities will be sharing their **expertise**, and professional **insights** about [Advanced Energy Materials](#)

Benefits for the Webinar attendees are as follows:

- International Speaker Certification
- Hard copy of Conference Souvenir, ID card and certificate will be sent to your address
- Online publication of the abstract in the conference website
- Abstract publication in the conference proceeding with the unique DOI given
- Exclusive Speaker Pages in relation with the conference website for registered speakers and Organizing Committee Members
- Special Publication discount benefits as a conference attendee
- Group Registration discounts
- Outstanding Young Researcher Award
- Nominations for Best Poster Award
- International Networking
- Scientific Association, Collaboration and many more..!

Best Regards,

Timna Dimitrov
