

Do you deserve the Patients you Get? – Creating Results Driven Practice!

Dr Ari Gronich

The Performance Therapist, United States

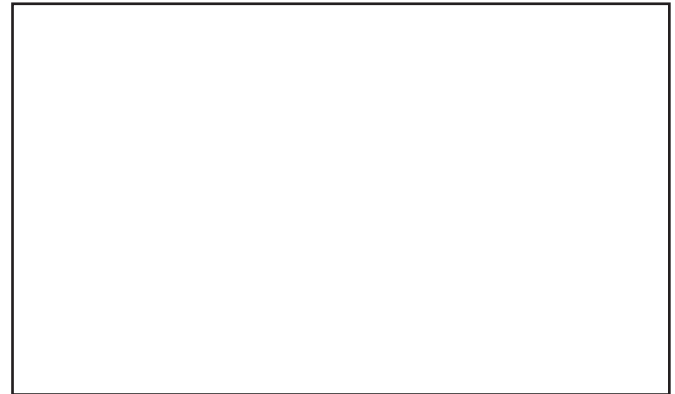

Abstract:

Aim: Evaluation and treatment of overweight during the COVID-19 period. – Being able to develop unique and individualized programs for clients will skyrocket

your practice's success. Taking the extra time to learn about your clients exclusive needs and creating a program around them will not only gain you greater results, will also cause a referral source and partnership resource stream to flood in like you never knew possible. Outline – Indications to look for Severity of Case – Low, Moderate, High Level of Care needed Motivation – Current as well as long term motivation to get better and go through a program Contraindications – Injuries, Illnesses, Mindsets, etc. Goals and Expectations – Can you measure and manage the goals of yourself and client to maintain improvement or do you need outside help from partners. Support System – What is home and work life like, can we gain support from friends and family Time Management – Can the time required be prioritized Benefits of bundling care with other practitioners for ultimate success and to make marketing dollars flow freer.
